DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at (240) 276–0166.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Project: State Opioid Response (SOR)/ Tribal Opioid Response (TOR) Program Instrument (OMB No. 0930–0384)— Revision

SAMHSA is requesting approval to modify its existing SOR/TOR Program Instrument by (1) broadening language from 'naloxone' to 'naloxone and other opioid overdose reversal medications' due to the availability of new FDAapproved non-naloxone overdose reversal medications; (2) broadening language from 'fentanyl test strips' to 'drug checking technologies as directed by SAMHSA' due to the availability of new drug checking technology, including test strips for other emerging substances; (3) reducing the number of questions from 12 to 10 by combining four questions with similar themes into two questions for clarity; (4) removing question 12 because it is comprised of more than one question with several different ideas, making it unsuited for this instrument; and (5) adding one question at the request of Office of National Drug Control Policy (ONDCP)to collect information on Congressionally mandated and programmatic activities and comply with reporting requirements. The program-level information is collected quarterly and entered and stored in SAMHSA's Performance Accountability and Reporting System, which is a realtime, performance management system that captures information on SAMHSA funded substance use and substance use disorder prevention, harm reduction, treatment, and recovery support services, and mental health services delivered in the United States. Continued approval of this information collection will allow SAMHSA to continue to meet Government Performance and Results Modernization Act (GPRA) of 2010 reporting requirements that quantify the effects

and accomplishments of its discretionary grant programs.

The SOR/TOR programs are authorized under the Consolidated Appropriations Act, 2023, Division H, Title II [Pub. L. 117-328], and section 1003 of the 21st Century Cures Act [Pub. L. 114-255] (42 U.S.C. 290ee-3a), as amended. SOR/TOR programs aim to address the opioid crisis by increasing access to FDA-approved medications for the treatment of opioid use disorder (MOUD), and support the continuum of prevention, harm reduction, treatment, and recovery support services for opioid use disorder (OUD) and other concurrent substance use disorders. The SOR program also supports the continuum of care for stimulant misuse and use disorders, including for cocaine and methamphetamine.

SAMHSA is proposing to revise the SOR/TOR Program Instrument data collection instrument (OMB No. 0930–0384), to collect information on Congressionally mandated and programmatic activities and comply with reporting requirements.

SAMHSA developed the SOR/TOR Program Instrument to collect minimum data on naloxone purchase and distribution, but the SOR/TOR programs are unique in that they have prevention, education, and harm reduction requirements. SOR/TOR grantees are required to engage in the following prevention and education activities: (1) train peers, first responders, and other key community sectors on recognition of opioid overdose and appropriate use of the opioid overdose antidote naloxone; (2) develop evidence-based community prevention efforts such as strategic messaging on the consequences of opioid and stimulant misuse; (3) implement school-based prevention programs and outreach; and (4) purchase and distribute opioid overdose antidote reversal naloxone based on the

naloxone distribution and saturation plan, and train on its use. The revised tool will continue to allow SAMHSA to collect data on the required education and prevention activities, and better assess grantee performance on these activities. The revisions will continue to assist SAMHSA in providing comprehensive data on the full range of required activities to inform Congressionally mandated reports for the SOR program.

In order to address these issues, SAMHSA is proposing to (1) broaden language from 'naloxone' to 'naloxone and other opioid overdose reversal medications' due to the availability of new FDA-approved non-naloxone overdose reversal medications; (2) broaden language from 'fentanyl test strips' to 'drug checking technologies as directed by SAMHSA' due to the availability of new drug checking technology, including test strips for other emerging substances; (3) reduce the number of questions from 12 to 10

by combining four questions with similar themes into two questions for clarity; (4) remove question 12 because it is comprised of more than one question with several different ideas, making it unsuited for this instrument; and (5) add one question at the request of ONDCP to collect information on Congressionally mandated and programmatic activities and comply with reporting requirements.

A summary of the proposed changes includes:

- Broadening the language to include new medications and technologies that will provide SAMHSA data on the following:
- Purchase and distribution of naloxone and other opioid overdose reversal medications; and
- Purchase and distribution of drug checking technologies as directed by SAMHSA.
- The revised tool will provide SAMHSA with clarification on individuals recognizing an opioid overdose and appropriate use of

naloxone and other opioid overdose reversal medication by collapsing two questions with a similar theme.

- The revised tool will provide SAMHSA with clarification on individuals educated on the consequences of opioid and/or stimulant misuse by collapsing two questions with a similar theme.
- One question will be added to provide data on the following:
- O Types of entities that distribute naloxone and other opioid overdose reversal medications.

The Center for Substance Abuse Treatment (CSAT) anticipates that the time required to collect and report the program-level information is approximately 18 minutes per response. Since the submission of the previous OMB package, there has been an increase in the number of respondents. The estimated burden associated with the program-level instrument includes an adjustment to reflect the current number of grantees.

TABLE 1—ESTIMATE OF ANNUALIZED HOUR BURDEN FOR SOR/TOR GRANTEES

SAMHSA data collection	Number of respondents	Responses per respondent	Total number of responses	Burden hours per response	Total burden hours	Hourly wage ¹	Total wage cost
Grantee-Level Instru- ment	189	4	756	.30	226.80	\$28.89	\$6,552.25
CSAT Total	189	4	756	.30	226.80	28.89	6,552.25

¹The hourly wage estimate is \$28.89 based on the Occupational Employment and Wages, Mean Hourly Wage Rate for 21–1018 Substance Abuse, Behavioral Disorder, and Mental Health Counselors = \$28.89/hr. as of May 2023 (https://www.bls.gov/oes/current/oes211018.htm. Accessed on April 17, 2024.)

Send comments to the SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Room 15E45, Rockville, Maryland 20857, *OR* email a copy to *samhsapra@ samhsa.hhs.gov*. Written comments should be received by August 23, 2024.

Alicia Broadus,

Public Health Advisor.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2024-0002; Internal Agency Docket No. FEMA-B-2443]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security. **ACTION:** Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified

for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before September 23, 2024. **ADDRESSES:** The Preliminary FIRM, and

where applicable, the FIS report for each community are available for inspection at both the online location https://hazards.fema.gov/femaportal/prelimdownload and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at https://msc.fema.gov for comparison.

You may submit comments, identified by Docket No. FEMA-B-2443, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov.
