

elevation of 710.4 to 711.6 feet NGVD 29; (2) manage any non-emergency drawdown so the reservoir drawdown rate does not exceed 12 inches per 24 hours for the first 48 hours and 6 inches per 24 hours after that; (3) release a minimum flow of 16 cubic feet per second (cfs) or inflow, whichever is less, to the bypassed reach; and (4) implement an operation compliance monitoring plan, land management plan, fly ash/cinders monitoring plan, and purple loosestrife monitoring plan.

Northern States does not propose to add any new project facilities. However, Northern States proposes to revise the project boundary around the impoundment to follow a contour elevation of 711.6 NGVD 29, which would result in a reduction in the total acreage of the project boundary upstream of the dam from 76.5 to 39.9 acres. Additionally, Northern States proposes the following changes to the project boundary: (1) remove approximately 38.8 acres of land north of the project's access road and approximately 12 acres of land northeast of the powerhouse; (2) add approximately 0.3 acre of land associated with the substation that includes the project's transformer; (3) add approximately 0.6 acre of land associated with the project's access road; (4) add approximately 1.3 acres of water in the White River downstream of the project; and (5) add approximately 0.3 acre of land east of the south earthen embankment.

Northern States proposes to: (1) continue operating the project in a run-of-river mode and maintaining the surface elevation of the impoundment between 710.4 and 711.6 feet NGVD 29; (2) continue releasing a minimum flow of 16 cfs or inflow, whichever is less, to the bypassed reach at all times; (3) develop an operation compliance monitoring plan; (4) conduct shoreline erosion surveys every ten years; (5) develop an invasive species monitoring plan; (6) pass woody debris from the impoundment to the bypassed reach; (7) replace recreational signage; (8) maintain project recreation facilities; (9) protect bats by restricting building and tree maintenance; (10) protect wood turtles by restricting herbicide use; (11) avoid vegetation management and construction activities within 660 feet of bald eagle nests during the nesting season; and (12) develop a historic properties management plan to protect historic properties.

m. A copy of the application can be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in

the docket number field to access the document (*i.e.*, P-2444). For assistance, contact FERC Online Support.

n. Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

All filings must (1) bear in all capital letters the title "PROTEST," "MOTION TO INTERVENE," "COMMENTS," "REPLY COMMENTS," "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

You may also register online at <https://ferconline.ferc.gov/FEROnline.aspx> to be notified via email of new filings and issuances related to this or

other pending projects. For assistance, contact FERC Online Support.

o. *The applicant must file no later than 60 days following the date of issuance of this notice:* (1) a copy of the water quality certification; (2) a copy of the request for certification, including proof of the date on which the certifying agency received the request; or (3) evidence of waiver of water quality certification.

p. *Procedural Schedule:* The application will be processed according to the following schedule. Revisions to the schedule will be made as appropriate.

Milestone	Target date
Filing of Comments, Recommendations, Terms and Conditions, and Prescriptions.	August 2024.
Filing of Reply Comments	September 2024.

q. Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of this notice.

Dated: June 14, 2024.

Debbie-Anne A. Reese,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0750; FRL-11989-01-OCSPP]

Pesticide Registration Review; Proposed Decisions for Several Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's proposed interim registration review decisions (PIDs) for the following pesticides: Dicrotophos and dimethoate. EPA is opening a 60-day public comment period for these PIDs.

DATES: Comments must be received on or before August 23, 2024.

ADDRESSES: Submit your comments, identified by the docket identification (ID) number for the specific pesticide of interest provided in Table 1 of Unit I, by one of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI)

or other information whose disclosure is restricted by statute.

• Mail: <https://www.epa.gov/dockets/where-send-comments-epa-dockets>.
OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

FOR FURTHER INFORMATION CONTACT: For pesticide specific information, contact: The Chemical Review Manager for the

pesticide of interest identified in Table 1 of Unit I.

For general information on the registration review program, contact: Melanie Biscoe, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: 202-566-0701; email address: biscoe.melanie@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Purpose of this Notice

Pursuant to 40 CFR 155.58(a), this notice announces the availability of EPA’s proposed interim and proposed registration review decisions for the pesticides shown in Table 1 and opens a 60-day public comment period on the proposed interim and proposed registration review decisions.

TABLE 1—PROPOSED INTERIM REGISTRATION REVIEW DECISIONS

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
Dicrotophos, Case Number 0145	EPA-HQ-OPP-2008-0440	Anitha Koyra, koyra.anitha@epa.gov , (202) 566-2214.
Dimethoate, Case Number 0088	EPA-HQ-OPP-2009-0059	Anna Senninger, senninger.anna@epa.gov , (202) 566-2216.

II. Background

EPA is conducting its registration review of the chemicals listed in the Table 1 of Unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). As part of the registration review process, the Agency has completed a proposed interim or proposed decision for each of the pesticides listed in Table 1 of Unit I.

The registration review docket for a pesticide includes documents related to the registration review case. Among other things, these documents describe EPA’s rationales for conducting additional risk assessments for the registration review of the pesticides included in Table 1 of Unit I, as well as the Agency’s subsequent risk findings and consideration of possible risk mitigation measures. The proposed interim and proposed registration review decisions are supported by the rationales included in those documents.

Consistent with 40 CFR 155.58(a), EPA provides for at least a 60-day public comment period on proposed interim and proposed registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed decision.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

III. What action is the Agency taking?

This notice is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager for the pesticide of interest identified in Table 1 of Unit I. In submitting a comment to EPA, please consider the following:

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all the information that you claim to be CBI. For CBI information on a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at:

<https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

All comments should be submitted using the methods in **ADDRESSES** and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticides included in Table 1 in Unit I. The Agency will consider all comments received by the closing date and may respond to comments in a “Response to Comments Memorandum” in the docket and/or in any subsequent interim or final registration review decision, as appropriate.

Authority: 7 U.S.C. 136 *et seq.*

Dated: June 18, 2024.

Jean Overstreet,

Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.
