

Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibt@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are

used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information

regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No.: CISA-2024-0011]

Agency Information Collection Activities: CISA Gateway User Registration

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: 30-Day notice and request for comments; renewal, 1670-0009.

SUMMARY: DHS CISA Infrastructure Security Division (ISD), will submit the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and clearance. CISA previously published this information collection request (ICR) in the **Federal Register** on April 24, 2024, for a 60-day public comment period. No comments were received by CISA. The purpose of this notice is to allow an additional 30 days for public comments.

DATES: Comments are encouraged and will be accepted until July 29, 2024. Submissions received after the deadline for receiving comments may not be considered.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

FOR FURTHER INFORMATION CONTACT: Ilesha Alexander, 202-440-0834, Ilesha.Alexander@CISA.DHS.GOV.

SUPPLEMENTARY INFORMATION: The Homeland Security Presidential Directive-7, Presidential Policy Directive-22, and the National Infrastructure Protection Plan highlight the need for a centrally managed repository of infrastructure attributes capable of assessing risks and facilitating data sharing. The Critical Infrastructure Information Act of 2002 and Title 6 Code of Federal Regulation part 29 direct an information protection program and a system to record the receipt, acknowledgement, and validation of submitted critical infrastructure information (CII), as well as storage, dissemination, and destruction of original Protected Critical Infrastructure Information (PCI). To support these missions, the DHS CISA ISD developed the CISA Gateway and the Protected Critical Infrastructure Information Management System (PCIIMS). The CISA Gateway and PCIIMS contain several capabilities which support the homeland security mission in the area of critical infrastructure (CI) and information protection.

The purpose of this collection is to gather the details pertaining to the users of the CISA Gateway and PCIIMS for the purpose of creating accounts to access the CISA Gateway and PCIIMS. This information is also used to verify a need to know to access the CISA Gateway and PCIIMS. After being vetted and granted access, users are prompted and required to take an online training course upon first logging into the system. After

completing the training, users are permitted full access to the systems. In addition, this collection will gather feedback from the users of the CISA Gateway to determine any future system improvements.

The information gathered will be used by the CISA Gateway Program Management Team and the PCII Program Office for PCIIMS to vet users for a need to know and grant access to the system. For the CISA Gateway, as part of the registration process, users are required to take a one-time online training course. When logging into the system for the first time, the system prompts users to take the training courses. Users cannot opt out of the training and are required to take the course in order to gain and maintain access to the system. When users complete the training, the system automatically logs that the training is complete and allows full access to the system. For PCIIMS, after registration and vetting, users are directed to take PCII Authorized User training, which must be retaken annually to maintain their active status.

The collection of information uses automated electronic forms. During the online registration process, there is an electronic form used to create a user account and an online training course required to grant access.

The collection was initially approved on October 9, 2007, and the most recent approval was on December 19, 2023, with an expiration date of June 30, 2024. The changes to the collection since the previous OMB approval include updating the title of the collection, decrease in burden estimates and decrease in costs.

The total annual burden cost for the collection has changed by \$3,096.40, from \$4,128 to \$7,224.40 due to the removal of the utilization survey, and the addition of PCIIMS respondents. For the CISA Gateway, the total number of responses has increased from 350 to 700 due to the updated metrics resulting from the awareness campaign and due to the registration process changing which does not include the training registration. The annual government cost for this collection has changed by \$8,340.92 from \$5,723 to \$14,063.92 due to the removal of the utilization survey, and the addition of PCIIMS respondents. This is a renewal of an information collection.

Analysis

Agency: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

Title of Collection: CISA Gateway User Registration.

OMB Control Number: 1670-0009.

Frequency: Annually.

Affected Public: State, local, Tribal, and Territorial governments and private sector individuals.

Number of Annualized Respondents: 700.

Estimated Time per Respondent: 0.167 hours for registration, 0.167 hours for training.

Total Annualized Burden Hours: 116.679 hours.

Total Annualized Respondent Opportunity Cost: \$7,224.40.

Total Annualized Respondent Out-of-Pocket Cost: \$0.

Total Annualized Government Cost: \$14,063.92.

Robert J. Costello,

Chief Information Officer, Department of Homeland Security, Cybersecurity and Infrastructure Security Agency.

BILLING CODE 9111-LF-P

DEPARTMENT OF HOMELAND SECURITY

U.S. Citizenship and Immigration Services

[OMB Control Number 1615-0102]

Agency Information Collection Activities; Extension, Without Change, of a Currently Approved Collection: Form G-639; Freedom of Information/Privacy Act Request

AGENCY: U.S. Citizenship and Immigration Services, Department of Homeland Security.

ACTION: 60-Day notice.

SUMMARY: The Department of Homeland Security (DHS), U.S. Citizenship and Immigration Services (USCIS) invites the general public and other Federal agencies to comment upon this proposed extension. In accordance with the Paperwork Reduction Act (PRA) of 1995, the information collection notice is published in the **Federal Register** to obtain comments regarding the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*, the time, effort, and resources used by the respondents to respond), the estimated cost to the respondent, and the actual information collection instruments.

DATES: Comments are encouraged and will be accepted for 60 days until August 27, 2024.

ADDRESSES: All submissions received must include the OMB Control Number
