

English name of the country of origin of the article. The Congressional intent in enacting 19 U.S.C. 1304 was “that the *ultimate purchaser* should be able to know by an inspection of the marking on the imported goods the country of which the goods is the product. The evident purpose is to mark the goods so that at the time of purchase the *ultimate purchaser* may, by knowing where the goods were produced, be able to buy or refuse to buy them, if such marking should influence his will.” *United States v. Friedlander & Co.*, 27 C.C.P.A. 297 at 302; C.A.D. 104 (1940) (emphases added).

Part 134 of CBP’s Regulations (19 CFR part 134), implements the country of origin marking requirements and exceptions of 19 U.S.C. 1304. Section 134.1(b), CBP Regulations (19 CFR 134.1(b)), defines “country of origin” as:

[T]he country of manufacture, production, or growth of any article of foreign origin entering the United States. Further work or material added to an article in another country must effect a substantial transformation in order to render such other country the “country of origin” within the meaning of this part. . . .

As outlined above, courts have held that a substantial transformation occurs when an article emerges from a process with a new name, character or use different from that possessed by the article prior to processing. *E.g.*, *Energizer Battery, Inc. v. United States*, 190 F. Supp. 3d 1308 (Court Int’l Trade 2016); *United States v. Gibson-Thomsen Co., Inc.*, 27 CCPA 267, C.A.D. 98 (1940); *National Hand Tool Corp. v. United States*, 16 CIT 308 (1992), *aff’d*, 989 F.2d 1201 (Fed. Cir. 1993); *Anheuser Busch Brewing Association v. United States*, 207 U.S. 556 (1908) and *Uniroyal Inc. v. United States*, 542 F. Supp. 1026 (Court Int’l Trade 1982).

Based on the information and analysis provided above, the imported PCBA components undergo a substantial transformation when manufactured into the subject PCBA in Taiwan. In contrast, the PCBA does not undergo a change in name, character, and use during the final assembly process occurring in China, which is comparatively simple in

nature. As a result, the country of origin for marking purposes of the subject DisplayPort male to female adapter is Taiwan, where the PCBA is manufactured.

Holding

Based on the facts and analysis set forth above, the DisplayPort male to female adapter, comprised of a Taiwan-origin PCBA, would be the product of a foreign country or instrumentality designated pursuant to 19 U.S.C. 2511(b). In addition, the country of origin for marking purposes of the adapter is Taiwan.

Notice of this final determination will be given in the **Federal Register**, as required by 19 CFR 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 CFR 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 CFR 177.30, any party-at-interest may, within 30 days of publication of the **Federal Register** Notice referenced above, seek judicial review of this final determination before the U.S. Court of International Trade.

Sincerely,
Alice A. Kipel,
*Executive Director Regulations and Rulings
Office of Trade.*

BILLING CODE 9111–14–P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Accreditation and Approval of Camin Cargo Control, Inc. (Pasadena, TX) as a Commercial Gauger and Laboratory

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of accreditation and approval of Camin Cargo Control, Inc. (Pasadena, TX), as a commercial gauger and laboratory.

SUMMARY: Notice is hereby given, pursuant to CBP regulations, that Camin

Cargo Control, Inc. (Pasadena, TX), has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes for the next three years as of July 26, 2023.

DATES: Camin Cargo Control, Inc. (Pasadena, TX) was approved and accredited as a commercial gauger and laboratory as of July 26, 2023. The next triennial inspection date will be scheduled for July 2026.

FOR FURTHER INFORMATION CONTACT: Robert P. Munivez, Laboratories and Scientific Services, U.S. Customs and Border Protection, 4150 Interwood South Parkway, Houston, TX 77032, tel. 281–560–2900.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to 19 CFR 151.12 and 19 CFR 151.13, that Camin Cargo Control, Inc., 1001 Shaw Avenue, Pasadena, TX 77506, has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.12 and 19 CFR 151.13.

Camin Cargo Control, Inc. (Pasadena, TX) is approved for the following gauging procedures for petroleum and certain petroleum products from the American Petroleum Institute (API):

API chapter	Title
3	Tank Gauging.
7	Temperature Determination.
8	Sampling.
11	Physical Properties Data.
12	Calculation of Petroleum Quantities.
17	Marine Measurement.

Camin Cargo Control, Inc. (Pasadena, TX), is accredited for the following laboratory analysis procedures and methods for petroleum and certain petroleum products set forth by the U.S. Customs and Border Protection Laboratory Methods (CBPL) and American Society for Testing and Materials (ASTM):

CBPL No.	ASTM	Title
27–03	D4006	Standard Test Method for Water in Crude Oil by Distillation.
27–04	D95	Standard Test Method for Water in Petroleum Products and Bituminous Materials by Distillation.
27–05	D4928	Standard Test Method for Water in Crude Oils by Coulometric Karl Fischer Titration.
27–08	D86	Standard Test Method for Distillation of Petroleum Products at Atmospheric Pressure.
27–11	D445	Standard Test Method for Kinematic Viscosity of Transparent and Opaque Liquids (and Calculation of Dynamic Viscosity).
27–13	D4294	Standard Test Method for Sulfur in Petroleum and Petroleum Products by Energy-Dispersive X-ray Fluorescence Spectrometry.
27–14	D2622	Standard Test Method for Sulfur in Petroleum Products by Wavelength Dispersive X-Ray Fluorescence Spectrometry.
27–48	D4052	Standard Test Method for Density, Relative Density, and API Gravity of Liquids by Digital Density Meter.

CBPL No.	ASTM	Title
27-50	D93	Standard Test Methods for Flash Point by Pensky-Martens Closed Cup Tester.
27-57	D7039	Standard Test Method for Sulfur in Gasoline and Diesel Fuel by Monochromatic Wavelength Dispersive X-Ray Fluorescence Spectrometry.
27-58	D5191	Standard Test Method for Vapor Pressure of Petroleum Products and Liquid Fuels (Mini Method).

Anyone wishing to employ this entity to conduct laboratory analyses and gauger services should request and receive written assurances from the entity that it is accredited or approved by the U.S. Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively, inquiries regarding the specific test or gauger service this entity is accredited or approved to perform may be directed to the U.S. Customs and Border Protection by calling (281) 560-2900. The inquiry may also be sent to CBPGaugersLabs@cbp.dhs.gov. Please reference the website listed below for a complete listing of CBP approved gaugers and accredited laboratories. <http://www.cbp.gov/about/labs-scientific/commercial-gaugers-and-laboratories>.

James D. Sweet,

Laboratory Director, Houston, Laboratories and Scientific Services.

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Accreditation and Approval of Intertek USA, Inc. (Deer Park, TX) as a Commercial Gauger and Laboratory

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of accreditation and approval of Intertek USA, Inc. (Deer Park, TX) as a commercial gauger and laboratory.

SUMMARY: Notice is hereby given, pursuant to CBP regulations, that Intertek USA, Inc. (Deer Park, TX), has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes for the next three years as of April 18, 2023.

DATES: Intertek USA, Inc. (Deer Park, TX) was approved and accredited as a commercial gauger and laboratory as of April 18, 2023. The next inspection date will be scheduled for April 2026.

FOR FURTHER INFORMATION CONTACT: Dr. Eugene Bondoc, Laboratories and Scientific Services Directorate, U.S. Customs and Border Protection, 1300 Pennsylvania Avenue NW, Suite 1501-

A North, Washington, DC 20229, tel. 202-344-1060.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to 19 CFR 151.12 and 19 CFR 151.13, that Intertek USA, Inc., 1114 Seaco Avenue, Deer Park, TX 77536, has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.12 and 19 CFR 151.13 as of April 18, 2023.

Intertek USA, Inc. (Deer Park, TX) is approved for the following gauging procedures for petroleum and certain petroleum products from the American Petroleum Institute (API):

API chapters	Title
3	Tank Gauging.
7	Temperature Determination.
8	Sampling.
12	Calculations.
17	Maritime Measurement.

Intertek USA, Inc. (Deer Park, TX) is accredited for the following laboratory analysis procedures and methods for petroleum and certain petroleum products set forth by the U.S. Customs and Border Protection Laboratory Methods (CBPL) and American Society for Testing and Materials (ASTM):

CBPL No.	ASTM	Title
27-01	D 287	Standard Test Method for API Gravity of Crude Petroleum and Petroleum Products (Hydrometer Method).
27-02	D 1298	Standard Test Method for Density, Relative Density (Specific Gravity), or API Gravity of Crude Petroleum and Liquid Petroleum Products by Hydrometer Method.
27-03	D 4006	Standard Test Method for Water in Crude Oil by Distillation.
27-04	D 95	Standard Test Method for Water in Petroleum Products and Bituminous Materials by Distillation.
27-05	D 4928	Standard Test Method for Water in Crude Oils by Coulometric Karl Fischer Titration.
27-06	D 473	Standard Test Method for Sediment in Crude Oils and Fuel Oils by the Extraction Method.
27-07	D 4807	Standard Test Method for Sediment in Crude Oil by Membrane Filtration.
27-08	D 86	Standard Test Method for Distillation of Petroleum Products at Atmospheric Pressure.
27-13	D 4294	Standard Test Method for Sulfur in Petroleum and Petroleum Products by Energy-Dispersive X-ray Fluorescence Spectrometry.
27-46	D 5002	Standard Test Method for Density, Relative Density, and API Gravity of Crude Oils by Digital Density Analyzer.
27-48	D 4052	Standard Test Method for Density and Relative Density of Liquids by Digital Density Meter.
27-54	D 1796	Standard Test Method for Water and Sediment in Fuel Oils by the Centrifuge Method.

Anyone wishing to employ this entity to conduct laboratory analyses and gauger services should request and receive written assurances from the entity that it is accredited or approved

by the U.S. Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively, inquiries regarding the specific test or gauger service this entity is accredited

or approved to perform may be directed to the U.S. Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to CBPGaugersLabs@cbp.dhs.gov. Please
