Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Applications for Trademark Registration

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comments on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on April 24, 2024 during a 60-day comment period (89 FR 31143). This notice allows for an additional 30 days for public comment.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Applications for Trademark Registration.

OMB Control Number: 0651-0009.

Needs and Uses: The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the USPTO. Registered marks may remain on the register indefinitely, so long as the owner of the registration files the necessary maintenance documents.

This information collection addresses submissions required by the regulations at 37 CFR part 2 for initial applications regarding the registration of trademarks,

service marks, collective trademarks and service marks, collective memberships marks, and certification marks. Trademarks can be registered on either the Principal or Supplemental Register. The Trademark Act and rules mandate that each certificate of registration include the mark, the goods and/or services in connection with which the mark is used, ownership information, dates of use, and certain other information. The USPTO also provides similar information concerning pending applications. The register and pending application information may be accessed by an individual or by businesses to determine the availability of a mark. By accessing the USPTO's information, parties may reduce the possibility of initiating use of a mark previously adopted by another. The federal trademark registration process may thereby reduce the number of filings between both litigating parties and the courts.

Forms:

- PTO-1478 (Trademark/Service Mark Application, Principal Register)
- PTO-1479 (Trademark/Service Mark Form, Supplemental Register)
- PTO-1480 (Certification Mark Form, Principal Register)
