DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Monthly Employment Utilization Report (CC-257)

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Office of Federal Contract Compliance Programs (OFCCP)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before August 8, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202-693-6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The U.S. Department of Labor's (DOL) Office of Federal Contract Compliance Programs (OFCCP) is requesting Office of Management and Budget (OMB) review and approval of the Monthly Employment Utilization Report (CC-257). The proposed CC-257 would require covered construction contractors and subcontractors to submit monthly reports on their employee count and work hours by race/ethnicity, gender, and trade in the covered area.

OFCCP previously collected the CC-257 under OMB control number 1215-0163 but discontinued the report in 1995. Since that time, DOL restructured OFCCP as a stand-alone agency and OMB transferred OFCCP's information collections to OMB control numbers that begin with a "1250" agency code.

As such, OFCCP is requesting a new "1250" OMB control number for the CC-257 report. This information collection request (ICR) outlines the legal authority, procedures, burden, and costs associated with the collection. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 26, 2024 (89 FR 14109).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

SUPPLEMENTARY INFORMATION: The collection of information contained in the Cranes and Derricks Standard codified at 29 CFR part 1926 subpart CC mandate that a covered employer produce and maintain records documenting controls and other measures taken to protect workers from hazards related to cranes and derricks used in construction. In addition, the standard for cranes and derricks in construction provides specific exemptions and clarifications with regard to the application of the standard to cranes

These exemptions and clarifications recognize the unique equipment and circumstances in railway roadway work and reflect the preemption of some OSHA requirements by regulations promulgated by the Federal Railroad Administration.
