BILLING CODE 4810-AM-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. AD24-3-000]

Billing Procedures for Annual Charges for the Costs of Other Federal Agencies for Administering Part I of the Federal Power Act; Notice Reporting Costs for Other Federal Agencies' Administrative Annual Charges for Fiscal Year 2023

1. The Federal Energy Regulatory Commission (Commission) is required to determine the reasonableness of costs incurred by other Federal agencies (OFAs)¹ in connection with their participation in the Commission's proceedings under the Federal Power Act (FPA) Part I² when those agencies seek to include such costs in the administrative charges licensees must pay to reimburse the United States for the cost of administering Part I.³ The Commission's *Order on Remand and Acting on Appeals of Annual Charge Bills*⁴ determined which costs are eligible to be included in the

¹ The OFAs include: the U.S. Department of the Interior (Bureau of Land Management, Bureau of Reclamation, National Park Service, U.S. Fish and Wildlife Service, Office of the Solicitor, Office of Environmental Policy & Compliance); the U.S. Department of Agriculture (U.S. Forest Service); the U.S. Department of Commerce (National Marine Fisheries Service); and the U.S. Army Corps of Engineers.

² 16 U.S.C. 791a-823d (2018).

³ See *id.* section 803(e)(1) and 42 U.S.C. 7178 (2018).

administrative annual charges. This order also established a process whereby the Commission would annually request each OFA to submit cost data, using a form⁵ specifically designed for this purpose. In addition, the order established requirements for detailed cost accounting reports and other documented analyses to explain the cost assumptions contained in the OFAs' submissions.

2. The Commission has completed its review of the forms and supporting documentation submitted by the U.S. Department of the Interior (Interior), the U.S. Department of Agriculture (Agriculture), and the U.S. Department of Commerce (Commerce) for fiscal year (FY) 2023. This notice reports the costs the Commission included in its administrative annual charges for FY 2024.

Scope of Eligible Costs

3. The basis for eligible costs that should be included in the OFAs' administrative annual charges is prescribed by the Office of Management and Budget's (OMB) Circular A-25—*User Charges* and the Federal Accounting Standards Advisory Board's Statement of Federal Financial Accounting Standards (SFFAS) Number 4—*Managerial Cost Accounting Concepts and Standards for the Federal Government*. Circular A-25 establishes Federal policy regarding fees assessed for government services and provides specific information on the scope and type of activities subject to user charges. SFFAS Number 4 provides a conceptual framework for federal agencies to determine the full costs of government goods and services.

4. Circular A-25 provides for user charges to be assessed against recipients of special benefits derived from federal activities beyond those received by the general public.⁶ With regard to licensees, the special benefit derived from federal activities is the license to operate a hydropower project. The guidance provides for the assessment of sufficient user charges to recover the *full* costs of services associated with these special benefits.⁷ SFFAS Number 4 defines full costs as the costs of resources consumed by a specific governmental unit that contribute directly or indirectly to a provided service.⁸ Thus, pursuant to OMB requirements and authoritative accounting guidance, the Commission

must base its OFA administrative annual charge on all direct and indirect costs incurred by agencies in administering Part I of the FPA. The special form the Commission designed for this purpose, the "Other Federal Agency Cost Submission Form," captures the full range of costs recoverable under the FPA and the referenced accounting guidance.⁹

5. Our guidance directs the OFAs to ensure that the costs are for FPA Part I activities and that the documented costs are segregated between activities covering municipal projects from those for non-municipal projects. This year, we also asked the OFAs to provide additional narrative descriptions of the type of work performed in administering FPA Part I (including a list of the projects for which work was performed during the covered period) and a detailed description of what managerial/administrative or other activities are included in the non-specific category.

Commission Review of OFA Cost Submittals

5. The Commission received cost forms and other supporting documentation from the Departments of the Interior, Agriculture, and Commerce. The Commission completed a review of each OFA's cost submission forms and supporting reports. In its examination of the OFAs' cost data, the Commission considered each agency's ability to demonstrate a system or process which effectively captured, isolated, and reported FPA Part I costs as required by the "Other Federal Agency Cost Submission Form."

6. The Commission held a Technical Conference on March 21, 2024 to report its initial findings to licensees and OFAs. Representatives for several licensees and most of the OFAs attended the conference. Following the technical conference, a transcript was posted, and licensees had the opportunity to submit comments to the Commission regarding its initial review.

7. Idaho Falls Group (Idaho Falls) filed written comments¹⁰ generally agreeing with the Commission's revisions of the guidance requiring narrative descriptions of work

⁹ For the past few years, the form has excluded "Other Direct Costs" to avoid the possibility of confusion that occurred in earlier years as to whether costs were being entered twice as "Other Direct Costs" and "Overhead."

performed for each project during the fiscal year.

8. After full consideration of the comments presented, and in accordance with the previously cited guidance, the

Commission accepted as reasonable any costs reported via the cost submission forms that were clearly documented in the OFAs' accompanying reports and/or analyses. These documented costs will

be included in the administrative annual charges for FY 2024.

Figure 1

9. Figure 1 summarizes the total reported costs incurred by Interior, Agriculture, and Commerce with respect to their participation in administering Part I of the FPA. Additionally, Figure 1 summarizes the reported costs that the Commission determined were clearly documented and accepted for inclusion in its FY 2024 administrative annual charges.

Summary Findings of Commission's Costs Review

10. As presented in Figure 1, the Commission has determined that \$5,814,411 of the \$6,702,547 in total reported costs were reasonable and clearly documented in the OFAs' accompanying reports and/or analyses. Based on this finding, 13% of the total reported cost was determined to be unreasonable. The Commission notes the most significant issue with the documentation provided by the OFAs was the lack of detailed description of type of work performed and a list of projects for work performed during the fiscal year.

11. The cost reports that the Commission determined were clearly documented and supported could be traced to detailed cost-accounting reports, which reconciled to data provided from agency financial systems or other pertinent source documentation. A further breakdown of these costs is included in the Appendix to this notice, along with an explanation of how the Commission determined their reasonableness.
