

a. Give the agency a copy of the relevant **Federal Register** notice showing the extension of TPS-related documentation in addition to your recent TPS-related document with your A-Number, USCIS number, or Form I-94 number;

b. Explain that SAVE will be able to verify the continuation of your TPS using this information; and

c. Ask the agency to initiate a SAVE query with your information and follow through with additional verification steps, if necessary, to get a final SAVE response verifying your TPS.

You can also ask the agency to look for SAVE notices or contact SAVE if they have any questions about your immigration status or automatic extension of TPS-related documentation. In most cases, SAVE provides an automated electronic response to benefit-granting agencies within seconds, but occasionally verification can be delayed.

You can check the status of your SAVE verification by using CaseCheck at <https://www.uscis.gov/save/save-casecheck>. CaseCheck is a free service that lets you follow the progress of your SAVE verification case using your date of birth and one immigration identifier number (such as your A-Number, USCIS number, or Form I-94 number) or Verification Case Number. If an agency has denied your application based solely or in part on a SAVE response, the agency must allow you to appeal the decision in accordance with the agency's procedures. If the agency has received and acted on or will act on a SAVE verification and you do not

believe the SAVE response is correct, the SAVE website, <https://www.uscis.gov/save>, has detailed information on how to correct or update your immigration record, make an appointment, or submit a written request to correct records.

BILLING CODE 9111-97-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-HQ-IA-2024-0118; FXIA1671090000-245-FF09A30000]

Endangered Species; Issuance of Permits

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of issuance of permits.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have issued permits to conduct certain activities with endangered species. We issue these permits under the Endangered Species Act (ESA).

ADDRESSES: Information about the applications for the permits listed in this notice is available at <https://www.regulations.gov>. See **SUPPLEMENTARY INFORMATION** for details.

FOR FURTHER INFORMATION CONTACT: Timothy MacDonald, by phone at 703-358-2185 or via email at DMAFR@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access

telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have issued permits to conduct certain activities with endangered and threatened species in response to permit applications that we received under the authority of section 10(a)(1)(A) of the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

After considering the information submitted with each permit application and the public comments received, we issued the requested permits subject to certain conditions set forth in each permit. For each application for an endangered species, we found that (1) the application was filed in good faith, (2) the granted permit would not operate to the disadvantage of the endangered species, and (3) the granted permit would be consistent with the purposes and policy set forth in section 2 of the ESA.

Availability of Documents

The permittees' original permit application materials, along with public comments we received during public comment periods for the applications, are available for review. To locate the application materials and received comments, go to <https://www.regulations.gov> and search for the appropriate permit number (e.g., 12345C) provided in table 1.

TABLE 1—PERMITS ISSUED

ePermit No.	Applicant	Permit issuance date
PER8631906	Tyler Zirpel	June 3, 2024.
PER8710173	Ronald Carter	June 3, 2024.
PER10054100	San Diego Zoo Wildlife Alliance, dba Zoological Society of San Diego	June 6, 2024.
PER10046934	Lincoln Park Zoo	June 12, 2024.
PER9889816	Washington University in St. Louis	June 18, 2024.
PER8605010	Erich Jarvis, c/o Rockefeller University	June 25, 2024.
PER9700548	Peck's Wildwood Wildlife Park and Nature Center	June 25, 2024.

Authority

We issue this notice under the authority of the Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*), and its implementing regulations.

Timothy MacDonald,

Government Information Specialist, Branch of Permits, Division of Management Authority.

[Docket No. FWS-R8-ES-2024-0076; FF08ESMF00-245-FXES11140800000]

Pelicans Jaw Hybrid Solar Project, Kern County, CA; Draft Categorical Exclusion and Draft Habitat Conservation Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for public comments.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Pelicans Jaw Solar, LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed San Joaquin kit fox and blunt-nosed leopard lizard, as well as two other unlisted species should they become listed,

incidental to development activities in Kern County, California. We request public comment on the application, which includes the applicant's proposed habitat conservation plan, and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations, the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before August 9, 2024.

ADDRESSES: *Obtaining Documents:* The documents this notice announces, as well as any comments and other materials that we receive, will be available for public inspection online in Docket No. FWS-R8-ES-2024-0076 at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods.

- *Internet:* Submit comments at <https://www.regulations.gov> under Docket No. FWS-R8-ES-2024-0076.

- *U.S. Mail:* Public Comments Processing, Attn: Docket No. FWS-R8-ES-2024-0076; U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike; Falls Church, VA 22041-3803.

For more information, see Public Comments under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Justin Sloan, San Joaquin Valley Division Supervisor, Sacramento Fish and Wildlife Office, by phone at 916-414-6600. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce receipt of an application from Pelicans Jaw Solar, LLC (applicant) for a 39-year incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP

to take the federally endangered San Joaquin kit fox (*Vulpes macrotis mutica*) and blunt-nosed leopard lizard (*Gambelia sila*) incidental to development activities in Kern County, California. The ITP would also cover the proposed threatened western spadefoot (*Spea hammondi*) and unlisted burrowing owl (*Athene cunicularia*), should either species become federally listed during the term of the habitat conservation plan (HCP). We request public comment on the application, which includes the applicant's HCP, and on the Service's preliminary determination that this proposed ITP qualifies as low effect, and may qualify for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations (40 CFR 1501.4), the Department of the Interior's (DOI) NEPA regulations (43 CFR 46), and the DOI's Departmental Manual (516 DM 8.5(C)(2)). To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review.

Background Information

Section 9 of the ESA (16 U.S.C. 1531-1544 *et seq.*) and Federal regulations (50 CFR 17) prohibit the taking of fish and wildlife species listed as endangered or threatened under section 4 of the ESA. Regulations governing permits for endangered and threatened species are at 50 CFR 17.22 and 17.32, respectively. For more about the Federal habitat conservation plan (HCP) program, go to <https://www.fws.gov/service/habitat-conservation-plans>.

Proposed Action

Under the Proposed Action, the Service would issue an ITP to the applicant for a period of 39 years for certain covered activities (described below). The applicant has requested an ITP for the federally endangered San Joaquin kit fox (*Vulpes macrotis mutica*) and blunt-nosed leopard lizard (*Gambelia sila*). The ITP would also cover the proposed threatened western spadefoot (*Spea hammondi*) and unlisted burrowing owl (*Athene cunicularia*), should either become federally listed during the term of the HCP.

Habitat Conservation Plan Area

The geographic scope of the draft HCP encompasses 3,260 acres (ac) in northwestern Kern County where the development will occur, and 3,993 ac in northwestern Kern County that will be used to mitigate impacts from HCP covered activities.

Covered Activities

The proposed section 10 ITP would allow incidental take of the covered species from covered activities in the proposed HCP area. The applicant is requesting incidental take authorization for covered activities, including site preparation, infrastructure development, construction, operations and maintenance, and decommissioning. The applicant is proposing to implement a number of project design features, including best management practices, as well as general and species-specific avoidance and minimization measures to minimize the impacts of the take from the covered activities.

Public Comments

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party. We particularly seek comments on the following:

- Biological information concerning the species.
- Relevant data concerning the species.
- Additional information concerning the range, distribution, population size, and population trends of the species.
- Current or planned activities in the area and their possible impacts on the species.
- The presence of archeological sites, buildings and structures, historic events, sacred and traditional areas, and other historic preservation concerns, which are required to be considered in project planning by the National Historic Preservation Act.
- Any other environmental issues that should be considered with regard to the proposed development and permit action.

Public Availability of Comments

Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's proposed project would individually and cumulatively have a minor effect on the covered species and the human

environment. Therefore, we have preliminarily determined that the proposed ESA section 10(a)(1)(B) permit would be a low-effect ITP that individually or cumulatively would have a minor effect on the species and may qualify for application of a categorical exclusion pursuant to the Council on Environmental Quality's NEPA regulations, DOI's NEPA regulations, and the DOI Departmental Manual. A low-effect ITP is one that would result in (1) minor or nonsignificant effects on species covered in the HCP; (2) nonsignificant effects on the human environment; and (3) impacts that, when added together with the impacts of other past, present, and reasonably foreseeable actions, would not result in significant cumulative effects to the human environment.

Next Steps

Issuance of an incidental take permit is a Federal proposed action subject to compliance with NEPA and section 7 of the ESA. We will evaluate the application, associated documents, and any public comments we receive as part of our NEPA compliance process to determine whether the application meets the requirements of section 10(a) of the ESA. If we determine that those requirements are met, we will conduct an intra-Service consultation under section 7 of the ESA for the Federal action for the potential issuance of an ITP. If the intra-Service consultation confirms that issuance of the ITP will not jeopardize the continued existence of any endangered or threatened species, or destroy or adversely modify critical habitat, we will issue a permit to the applicant for the incidental take of the covered species.

Authority

We provide this notice under section 10(c) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1500–1508 and 43 CFR 46).

Michael Fris,

Field Supervisor, Sacramento Fish and Wildlife Office.

Draft Environmental Assessment and Proposed Pacific Gas and Electric Valley Elderberry Longhorn Beetle Operation and Maintenance Habitat Conservation Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for public comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce receipt of an application from Pacific Gas and Electric for an incidental take permit for the Valley Elderberry Longhorn Beetle Operation and Maintenance Habitat Conservation Plan. Under the Endangered Species Act and National Environmental Policy Act, we are making available the applicant's draft habitat conservation plan and our draft environmental assessment. We invite the public and local, State, Tribal, and Federal agencies to comment on the documents. Before issuing a requested permit, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before August 9, 2024.

ADDRESSES:

Obtaining Documents: The incidental take permit application, draft environmental assessment (EA), draft habitat conservation plan (plan), and any comments and other materials that we receive are available for public inspection at <https://www.regulations.gov> in Docket No. FWS–R8–ES–2024–0120.

Submitting Comments: To send written comments, please use one of the following methods, and note that your information requests or comments are in reference to the draft EA, draft plan, or both.

- *Internet:* Submit comments at <https://www.regulations.gov> at Docket No. FWS–R8–ES–2024–0120.
- *U.S. Mail:* Public Comments Processing, Attn: Docket No. FWS–R8–ES–2024–0120; U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike; Falls Church, VA 22041–3803.

For more information, see Public Comments under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Wendy Prestera, Senior Wildlife Biologist, or Jennifer Hobbs, Supervisor,

Military and Waterway Planning Division, Sacramento Fish and Wildlife Office, by phone at 916–414–6675. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce receipt of an application from Pacific Gas and Electric (PG&E) for a 30-year incidental take permit for the Valley Elderberry Longhorn Beetle Operation and Maintenance Habitat Conservation Plan (plan). The draft plan covers operations and maintenance activities and minor new construction projects that impact valley elderberry longhorn beetle (*Desmocerus californicus dimorphus*; beetle) and its habitat. PG&E has three other habitat conservation plans permitted between 2007 and 2020; the draft plan would fill gaps in coverage for the beetle and span all or portions of 12 counties in California.

We also make available the draft environmental assessment (EA), prepared pursuant to the National Environmental Policy Act of 1969, as amended (NEPA; 42 U.S.C. 4321 *et seq.*), and its implementing regulations in the Code of Federal Regulations (CFR) at 40 CFR 1506.6. The draft EA evaluates the impacts of the proposed action and the no-action alternative. The Service also considered four other alternatives, but these were eliminated from further consideration because they did not meet the purpose and need of the proposed action or the applicant's objectives.

Background Information

Section 9 of the Endangered Species Act (ESA; 16 U.S.C. 1538) and Federal regulations (50 CFR 17) prohibit the taking of fish and wildlife species listed as endangered or threatened under section 4 of the ESA. Regulations governing permits for endangered and threatened species are at 50 CFR 17.22 and 17.32, respectively. For more about the Federal habitat conservation plan (HCP) program, go to <https://www.fws.gov/service/habitat-conservation-plans>.

National Environmental Policy Act Compliance

The proposed issuance of a permit triggers the need for compliance with NEPA. The draft EA was prepared to
