and technical characteristics) of the product; (3) the country(ies) where the product is produced and the country from where the product is exported; (4) the full name of the applicant; and (5) the date that the scope application was filed with Commerce.")

² The products are solar modules produced in Türkiye from solar cells manufactured in Turkey where the P/N junction was created in Turkish facilities from Chinese inputs.

³ The products are certain customized merchandising displays and components thereof used in show rooms and flooring retailers to display merchandise like samples of carpets, luxury vinyl tiles and engineered or laminate wood flooring. The display is a floor standing unit made of cold rolled steel. Each unit consists primarily of: (1) two 60-inch long upright weldments that form two long vertical posts; (2) one span weldment and two brace span weldments that form the horizontal braces between the vertical posts; and (3) a base sub-assembly that forms the base of the display unit.

⁴ The products are steel pods with or without vertical posts. The products are made of carbon steel and covered with an epoxy powder coating. LEDVANCE can use the pods alone in its warehouse as a means of storing palletted product. Alternatively, LEDVANCE can use the pods, when imported with 1 1/8 inch wide vertical posts, as part of a light shelving system. When the vertical posts are added, other layers of horizontal shelving then go on top of and attach to the vertical posts. Configured as shelving, the products placed on or removed from the horizontal shelves are relatively lighter and are placed or removed by hand, not by forklift.

ruling application nor initiated the scope inquiry within 30 days after the filing of the application, the application will be deemed accepted and a scope inquiry will be deemed initiated the following day, *i.e.*, day 31.⁵ Commerce's practice generally dictates that where a deadline falls on a weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.⁶ Accordingly, if the 30th day after the filing of the application falls on a non-business day, the next business day will be considered the "updated" 30th day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the "updated" 30th day.⁷

In accordance with 19 CFR 351.225(m)(2), if there are companion AD and CVD orders covering the same merchandise from the same country of origin, the scope inquiry will be conducted on the record of the AD proceeding. Further, please note that pursuant to 19 CFR 351.225(m)(1), Commerce may either apply a scope ruling to all products from the same country with the same relevant physical characteristics, (including chemical, dimensional, and technical characteristics) as the product at issue, on a country-wide basis, regardless of the producer, exporter, or importer of those products, or on a company-specific basis.

For further information on procedures for filing information with Commerce through ACCESS and participating in scope inquiries, please refer to the Filing Instructions section of the Scope Ruling Application Guide, at https://access.trade.gov/help/Scope_Ruling_Guidance.pdf. Interested parties, apart from the scope ruling applicant, who wish to participate in a scope inquiry and be added to the public service list for that segment of the proceeding must

⁵ In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product is covered by the scope at issue in that alternative segment.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that certain frozen warmwater shrimp (shrimp) from India is being, or is likely to be, sold in the United States at less than normal value (NV) during the period of review (POR) February 1, 2022, through January 31, 2023.

DATES: Applicable July 10, 2024.

FOR FURTHER INFORMATION CONTACT: Ashley Cossaart, AD/CVD Operations, Office IX, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0462.

SUPPLEMENTARY INFORMATION:

Background

On March 5, 2024, Commerce published the *Preliminary Results* and invited comments from interested parties.¹ We received no substantive comments by interested parties regarding our *Preliminary Results*.² Accordingly, as the final results remain unchanged from the *Preliminary Results*, there is no decision memorandum accompanying this notice.

Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

¹ See *Certain Frozen Warmwater Shrimp from India: Preliminary Results of Antidumping Duty Administrative Review and Partial Rescission; 2022-2023*, 89 FR 15821 (March 5, 2024) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum (PDM).

² We note that, on April 4, 2024, RSA Marines/Royal Oceans (RSA Marines) submitted a case brief asking Commerce to amend its draft liquidation instructions to include the name of "RSA Marines" as "Importer." See RSA Marines' Letter, "Case Brief of RSA Marines," dated April 4, 2024. We intend to revise the draft liquidation instructions to reflect this change. RSA Marines raised no other comments in its case brief, and we received no other comments from interested parties on the *Preliminary Results*.

Scope of the Order³

The subject merchandise covered by this *Order* is certain frozen warmwater shrimp.⁴

Review-Specific Rate for Non-Examined Companies

The Act and Commerce's regulations do not address the establishment of a rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation, for guidance when calculating the rate for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally "an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually examined, excluding any margins that are zero, *de minimis* (*i.e.*, less than 0.5 percent), or determined entirely on the basis of facts available."

For these final results, because the rate calculated for RSA Marines is zero percent, we have assigned the rate calculated for NK Marine Exports LLP (NK Marine) (*i.e.*, 2.49 percent) to the non-selected companies.

Final Results of Review

For these final results, we determine that the following estimated weighted-average dumping margins exist for the respondents for the period February 1, 2022, through January 31, 2023:

Exporter/producer	Weighted-average dumping margin (percent)
NK Marine Exports LLP	2.49
RSA Marines; Royal Oceans	0.00
Review-Specific Rate for Non-Examined Companies ⁵	2.49

Disclosure

Normally, Commerce will disclose to the parties in a proceeding the calculations performed in connection with the final results of review within five days of any public announcement
