## SUPPLEMENTARY INFORMATION:

### I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act (Act), 15 U.S.C. 1051 *et seq.*, which provides for the registration of trademarks, service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the USPTO.

This information collection covers various trademark-related communications to the USPTO, including letters of protest, requests to make special, responses to petition inquiry letters, petitions to make special, requests to restore a filing date, and requests for reinstatement. This information collection also incorporates petitions for ex parte expungement or reexamination (PTO–2312). Ex parte expungement and reexamination proceedings were established by the Trademark Modernization Act of 2020 (TMA), Public Law 116–260 (Dec. 27, 2020), to cancel, either in whole or in part, registered marks for which the required use in commerce was not made. The burden estimate for petitions for ex parte expungement or reexamination was previously contained in OMB Control No. 0651–0086, Changes to Implement Provisions of the Trademark Modernization Act, but is being transferred into this information collection for efficiency. Finally, this information collection consolidates into a single burden estimate the burden for responses to petition inquiry letters (PTO–2305), which was previously reflected in both OMB Control No. 0651–0086 and this information collection.

The information covered in this collection is used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. Information relating to the registration of a trademark is made available to the public by the USPTO. However, the release of information in a letter of protest is controlled and may be available only upon request.

### II. Method of Collection
