Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include the docket number P-11143-022. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Project Facilities:* The project works include: a 150-foot-long granite masonry gravity overflow dam, a 43-acre reservoir with a surface elevation of 270.7 feet mean sea level and a gross storage capacity of 215 acre-feet, a set of 20-foot-long and 15-foot-wide trashracks, a 70-foot-long and 7-foot diameter penstock, an 18.9-foot-wide and 23.2-foot-long concrete

powerhouse containing one turbine-generating unit having a total installed capacity of 250 kilowatts (kW), a 35-foot-long and 18-foot-wide tailrace, a 135-foot-long transmission line and appurtenant facilities. The project has not operated since it was damaged by a storm in March 2010.

m. *Description of Proceeding:* The licensee has not complied with Standard Article 16 of the license which was issued on March 2, 1992 (58 FERC 62,169). Article 16 states that if the licensee abandons or discontinues good faith operation of the project or refuses or neglects to comply with the terms of the license and the lawful orders of the Commission, the Commission will deem it to be the intent of the licensee to surrender the license.

Commission staff issued a letter, on October 20, 2023, followed by a second letter on December 28, 2023, requesting a plan and schedule to resume project operation or surrender of the license. Commission staff shared a copy of the December 28, 2023 letter with the licensee's widow, as the licensee had passed away. On February 5, 2024, the widow informed Commission staff via email that she is not capable of rebuilding the hydroelectric project and agreed to an implied surrender of the project license following her husband's passing and that it is not possible for her to file a surrender application.
