

The regulation provides that all other use, absent statutory or other express authority, requires a sales contract or permit. The BLM refers interested parties to the explanation of this regulatory language in the preamble to the final rule published in the **Federal Register** in 2001, available at <https://www.federalregister.gov/d/01-29001>, which states that minimal use “would not include large-scale use of mineral materials, even within the boundaries of the surface estate” (66 FR 58894). Further explanation is contained in the BLM Instruction Memorandum No. 2014-085 (April 23, 2014), available on the BLM’s website at <https://www.blm.gov/policy/im-2014-085>.

The following numbered terms and conditions will appear on the conveyance documents for the sale parcels:

(1) All mineral deposits in the lands so patented, and to it, or persons authorized by it, the right to prospect for, mine, and remove such deposits from the same under applicable law and regulations to be established by the Secretary are reserved to the United States, together with all necessary access and exit rights.

(2) A right-of-way is reserved for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945).

(3) The parcels are subject to valid existing rights.

(4) The parcels are subject to reservations for roads, public utilities, and flood control purposes, both existing and proposed, in accordance with the local governing entities’ transportation plans.

(5) An appropriate indemnification clause protecting the United States from claims arising out of the patentee’s use, occupancy, or occupations on the patented lands.

To the extent required by law, the parcels are subject to the requirements of Section 120(h) of the CERCLA, as amended. Accordingly, notice is hereby given that the lands have been examined and no evidence was found to indicate that any hazardous substances have been stored for one year or more, nor that any hazardous substances have been disposed of or released on the subject properties.

No warranty of any kind, express or implied, is given by the United States as to the title, whether or to what extent the land may be developed, its physical condition, future uses, or any other circumstance or condition. The conveyance of the parcels will not be on a contingency basis.

Termination of Preparation of the Environmental Impact Statement for the Farmington Mancos-Gallup Resource Management Plan Amendment, New Mexico

AGENCY: Bureau of Land Management; Bureau of Indian Affairs, Interior.

ACTION: Notice of termination.

SUMMARY: The Bureau of Land Management (BLM) and the Bureau of Indian Affairs (BIA) are terminating the preparation of an environmental impact statement (EIS) for the Farmington Mancos-Gallup Resource Management Plan (RMP) Amendment.

DATES: The EIS development process for the Farmington Mancos-Gallup RMP Amendment is terminated immediately.

FOR FURTHER INFORMATION CONTACT:

BLM Farmington Field Office Project Manager Sarah Scott, sscott@blm.gov, 505-564-7689 or BIA Navajo Region Office Regional Archeologist/Project Manager Robert Begay, robert.begay1@bia.gov, 505-863-8515. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Scott or Mr. Begay. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: Pursuant to the National Environmental Policy Act of 1969, as implemented by the Council on Environmental Quality regulations, the BLM announced its intent to prepare an RMP Amendment and associated EIS on February 25, 2014 (79 FR 10548). On October 21, 2016, the BLM and the BIA published an amended Notice of Intent in the **Federal Register** announcing the addition of the BIA as a joint/co-lead agency for the EIS (81 FR 72819). The purpose of the EIS was to analyze the impacts of additional oil and gas development within the San Juan Basin in northwestern New

Mexico, as well as decisions related to lands and realty, BLM-managed lands with wilderness characteristics, and vegetation management. The EIS was also to evaluate alternatives and issues related to the BIA’s authority over mineral leasing and associated activity decisions on Navajo Tribal Trust Lands and Navajo Indian allotments. The Notice of Availability for the Draft EIS published in the **Federal Register** on February 28, 2020 (85 FR 12012). The bureaus distributed the Draft EIS to various Federal, State, and local agencies, elected officials, special interest groups, interested individuals, and the media. Due to the COVID-19 pandemic and restrictions placed on in-person meetings, virtual public hearings were held on May 14, 15, 16, and 18, 2020, as well as on August 26, 27, 28, and 29, 2020. Since the initial publication of the Notices of Intent in 2014 and 2016, and the publication of the draft RMP Amendment and EIS in 2020, there have been many changes relevant to the plan amendment and associated EIS, such as a change in the development trends in the San Juan Basin; the withdrawal of 336,404 acres from mineral entry around the Chaco Culture National Historical Park; the preparation of BIA-funded ethnographic studies for the region; the establishment of the Honoring Chaco Initiative; and an increase in outdoor recreation in the region. Given these changes and the extent of revisions necessary to address these changes in the current EIS process, the agencies determined it is impractical to continue the plan amendment effort as currently structured. Therefore, the BLM and BIA hereby terminate preparation of the EIS for the RMP Amendment.

Agency Information Collection Activities; Pollution Prevention and Control

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and Environmental Enforcement (BSEE) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before September 10, 2024.

ADDRESSES: Send your comments on this information collection request (ICR) by either of the following methods listed below:

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE–2024–0003 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email nikki.mason@bsee.gov, fax (703) 787–1546, or mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Nikki Mason; 45600 Woodland Road, Sterling, VA 20166. Please reference OMB Control Number 1014–0023 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Nikki Mason by email at nikki.mason@bsee.gov or by telephone at (703) 787–1607.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services.

Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize

the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: This authority and responsibility are among those delegated to BSEE. The regulations at 30 CFR part 250, subpart C requirements concern pollution prevention and control and are the subject of this collection. This request also covers any related Notices to Lessees and Operators (NLTs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations.

The information collected under subpart C is used in our efforts to:

- record the location of items lost overboard to aid in recovery during site clearance activities on the lease;
- conduct operations according to all applicable regulations, requirements, and in a safe and workmanlike manner;
- properly handle for the protection of OCS workers and the environment the discharge or disposal of drill cuttings, sand, and other well solids,

including those containing naturally occurring radioactive materials (NORM); and

- inspect facilities daily for the prevention of pollution and ensure that any observed problems are corrected.

Title of Collection: 30 CFR part 250, subpart C, Pollution Prevention and Control.

OMB Control Number: 1014–0023.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Potential respondents include Federal OCS oil, gas, and sulfur lessees and/or operators and holders of pipeline rights-of-way.

Total Estimated Number of Annual Respondents: Currently there are approximately 60 Oil and Gas Drilling and Production Operators in the OCS. Not all the potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 3,273.

Estimated Completion Time per Response: Varies from 1 hour to 134 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 137,940.

Respondent's Obligation: Responses are mandatory.

Frequency of Collection: Submissions are generally on occasion, weekly, and daily.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Kirk Malstrom,

Chief, Regulations and Standards Branch.
