

DEPARTMENT OF JUSTICE**Notice of Lodging of Proposed Consent Decree Under the Clean Air Act**

On July 8, 2024, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Colorado in the lawsuit entitled *United States and State of Colorado v. Enterprise Gas Processing, LLC, et al.*, Civil Action No. 1:24-cv-1878.

The United States and the State of Colorado jointly filed this lawsuit under the Clean Air Act against Defendants Enterprise Gas Processing, LLC and Enterprise Products Operating LLC, alleging violations of leak detection and repair requirements at a natural gas processing plant in Colorado. The complaint seeks injunctive relief and civil penalties for the defendants' alleged failures to monitor and repair leaking equipment at the natural gas processing plant. The consent decree requires the defendants to perform injunctive relief to address the alleged violations, and pay a \$1,000,000 civil penalty. The civil penalty will be split evenly between the United States and the State of Colorado.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and State of Colorado v. Enterprise Gas Processing, LLC, et al.*, D.J. Ref. No. 90-5-2-1-11933. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

<i>To submit comments:</i>	<i>Send them to:</i>
By email	<i>pubcomment-ees.enrd@usdoj.gov.</i>
By mail	Assistant Attorney General, U.S. DOJ-ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Any comments submitted in writing may be filed in whole or in part on the public court docket without notice to the commenter.

During the public comment period, the consent decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. If you require assistance accessing the consent decree, you may request assistance by email or mail to the

addresses provided above for submitting comments.

Jason Dunn,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF LABOR**Mine Safety and Health Administration**

[OMB Control No. 1219-0073]

Proposed Extension of Information Collection; Mine Mapping and Records of Opening, Closing, and Reopening of Mines

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor (DOL), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance request for comment to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information, in accordance with the Paperwork Reduction Act of 1995. This request helps to ensure that: requested data can be provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood; and the impact of collection requirements on respondents can be properly assessed. The Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Mine Mapping and Records of Opening, Closing, and Reopening of Mines.

DATES: All comments must be received on or before September 10, 2024.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below. Please note that late comments received after the deadline will not be considered.

- *Federal E-Rulemaking Portal:* <https://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA-2024-0010.

- *Mail/Hand Delivery:* DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, 4th Floor West, Arlington, VA 22202-5452. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of

Labor's COVID-19 policy. Special health precautions may be required.

- MSHA will post all comments as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances, MSHA, at

MSHA.information.collections@dol.gov (email); (202) 693-9440 (voice); or (202) 693-9441 (facsimile). These are not toll-free numbers.

SUPPLEMENTARY INFORMATION:**I. Background**

Section 103(h) of the Federal Mine Safety and Health Act of 1977, as amended (Mine Act), 30 U.S.C. 813(h), authorizes the Mine Safety and Health Administration (MSHA) to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811(a), authorizes the Secretary of Labor (Secretary) to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal, metal, and nonmetal mines.

In order to fulfill the statutory mandates to promote miners' health and safety, MSHA requires the collection of information associated with Mine Mapping and Records of Opening, Closing, and Reopening of Mines. The information collection addressed by this notice is intended to ensure that operators maintain up-to-date, accurate mine maps that are available for review and contain the information needed to identify the best alternatives for action during an emergency operation. Coal mine operators routinely use maps to develop safe and effective mine plans, including accurate, up-to-date disaster maps, which mine emergency personnel can use to locate refuges for miners and identify sites of explosion potential.

Mine maps are schematic depictions of critical mine infrastructure, such as water, power, transportation, ventilation, and communication systems. Mine maps describe the current status of an operating mine or provide crucial information about a closed mine that is being reopened. The maps provide essential information for MSHA to plan and conduct mandatory inspections and to review and approve mandatory mine plans including a proposed roof control plan and mine ventilation plan, and permits. Additionally, during a disaster, maps
