This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day notice (89 FR 21527, March 28, 2024) required by 44 U.S.C. 3506(c)(2). That notice received three off-topic comments. Accordingly, no changes have been made to the Collection.

Information Collection Request

Title: Applications for Private Aids to Navigation and for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

OMB Control Number: 1625-0011.

Summary: Under the provision of 14 U.S.C. 81, the Coast Guard is authorized to establish aids to navigation. 14 U.S.C. 83 prohibits establishment of aids to navigation without permission of the Coast Guard. 33 CFR 66.01-5 provides a means for private individuals to establish privately maintained aids to navigation. Under 43 U.S.C. 1333(d), the Secretary of Homeland Security has the authority to promulgate and enforce regulations concerning lights and other warning devices relating to the promotion of safety of life and property on artificial islands, installations, and other devices on the outer continental shelf involved in the exploration, development, removal, or transportation of resources there from. The Secretary delegated this authority to the Commandant of the Coast Guard under Department of Homeland Security Delegation No. 00170.1, Revision No. 01.3. Coast Guard's regulations in 33 CFR part 67 prescribe the type of aids to navigation that must be installed on artificial islands and fixed structures. Under the provision of 33 U.S.C. 409, Congress requires owners of vessels to immediately mark sunken craft unless Coast Guard issues a waiver. The Coast Guard's regulations for marking of sunken vessels are set out in 33 CFR part 64.11. The information collected for private aids to navigations and markings can only be obtained from the owners of sunken vessels. The information

collection requirements related to these aids to navigation applications are contained in 33 CFR 66.01-5 and 67.35-5.

Need: The information in these private aids to navigation applications (CG-2554 and CG-4143) provides the Coast Guard with vital information about private aids to navigation and is essential for safe marine navigation. These forms are required under 33 CFR parts 66 and 67. The information is reviewed to ensure the private aid is in compliance with current regulations. Additionally, these forms provide the Coast Guard with information which can be distributed to the public to advise of new, or changes to private aids to navigation. In addition, collecting the applicant's contact information is important because it allows the Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be responded to and promptly corrected or repaired.

Forms:

- CG-2554, Private Aids to Navigation Application.
- CG-4143, Application for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

Respondents: Owners of private aids to navigation.

Frequency: On occasion.

Hour Burden Estimate: The estimated annual burden has decreased from 2,000 hours to 1,709 hours due to a decrease in the number of respondents a year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. *et seq.*, chapter 35, as amended.

Dated: June 10, 2024.

Kathleen Claffie,

Chief, Office of Privacy Management, U.S. Coast Guard.
