

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-MRX-2024-19. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-MRX-2024-19 and should be submitted on or before August 6, 2024.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁵

Vanessa A. Countryman,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-100486; File No. SR-NSCC-2024-004]

Self-Regulatory Organizations; National Securities Clearing Corporation; Order Approving Proposed Rule Change To Decommission the DTCC Limit Monitoring Risk Management Tool

July 10, 2024.

I. Introduction

On May 16, 2024, The National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") proposed rule change SR-NSCC-2024-004, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder (the "Proposed Rule Change").² The Proposed Rule Change was published for comment in the **Federal Register** on June 4, 2024.³ The Commission has received no comments on the Proposed Rule Change. For the reasons discussed below, the Commission is approving the Proposed Rule Change.

II. Background

DTCC Limit Monitoring is a risk management tool currently made available to all NSCC Members. Limit Monitoring is a voluntary tool that is intended to supplement, and not replace, a Member's internal risk management systems, procedures, or use of other available industry tools.⁴ Limit Monitoring enables Members to monitor trading activity on an intraday basis for their organizations and/or correspondent firms using post-trade data by allowing Members to establish pre-set limits to monitor trading activity and to receive notifications when these pre-set limits are being approached and reached.⁵ NSCC does not require Members to take any particular action based on the output of Limit Monitoring, and any response by Members to a Limit Monitoring alert is performed away from NSCC.⁶

NSCC states that DTCC Limit Monitoring was created as part of a broader industry-wide effort to develop tools and strategies to mitigate and

address trading risks associated with complex, interconnected, and automated market technology.⁷ NSCC further states that, since the implementation of Limit Monitoring in 2014, U.S. equity exchanges have implemented certain optional risk management tools including, but not limited to, credit limits, single order limits, and kill switch functionality, which provide additional risk management tools for Members to supplement their internal controls.⁸ NSCC also states that broker-dealers have also continued to enhance their own internal risk management systems.⁹

III. Description of the Proposed Rule Change

The Proposed Rule Change would decommission the Limit Monitoring tool. NSCC states that the technology platform to maintain the data infrastructure for Limit Monitoring will soon need to be replaced, which would require the investment of significant resources to continue to offer Limit Monitoring.¹⁰ NSCC conducted outreach to evaluate its Members' use of Limit Monitoring. The outreach indicated that a majority of Members either do not use Limit Monitoring or do not rely on it extensively to manage their risks.¹¹ Members that do not use or make only limited use of Limit Monitoring primarily rely on other industry or in-house tools to monitor and evaluate risks.¹² NSCC conducted follow up outreach with those Members that do currently use Limit Monitoring, identifying no Members that raised significant concerns or objections to the decommissioning of Limit Monitoring.¹³ Therefore, NSCC has determined that it would no longer offer the Limit Monitoring tool, given the significant investment needed to continue to offer Limit Monitoring, the evolution in industry-wide risk control tools and processes since the implementation of Limit Monitoring in 2014, and the limited usage of Limit Monitoring by Members.¹⁴

To implement the Proposed Rule Change, NSCC would remove Rule 54 and Procedure XVII from their Rules.¹⁵ NSCC would also remove associated

defined terms from Rule 1.¹⁶ Finally, NSCC would remove Section 2(i) of Rule 58 concerning the limitations on NSCC's liability for the completeness or accuracy of LM Trade Date Data, LM Member-provided Data, LM Transaction Data, or other information or data which it receives from Members or third parties and which is utilized in DTCC Limit Monitoring, or for any errors, omissions or delays which may occur in the transmission of such data or information.

IV. Discussion and Commission Findings

Section 19(b)(2)(C) of the Act¹⁷ directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and rules and regulations thereunder applicable to such organization. After carefully considering the Proposed Rule Change, the Commission finds that the Proposed Rule Change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to NSCC. In particular, the Commission finds that the Proposed Rule Change is consistent with Section 17A(b)(3)(F)¹⁸ of the Act.

Section 17A(b)(3)(F) of the Act requires that the rules of a clearing agency, such as NSCC, be designed to, among other things, promote the prompt and accurate clearance and settlement of securities transactions and, in general, to protect investors and the public interest.¹⁹ The Commission believes that the Proposed Rule Change is consistent with Section 17A(b)(3)(F) of the Act for the reasons stated below.

As described in Part II above, Limit Monitoring is a voluntary tool intended to supplement a Member's internal risk management processes and use of other available tools. Although the tool was created in response to an industry-wide need due to trading risks associated with new market technologies in 2014, there now is a broader range of options available to Members to help manage these risks. Limit Monitoring is not a widely used risk management tool, and those who do use it did not raise significant concerns about its elimination. Given that NSCC would need to invest significant resources to continue to offer Limit Monitoring to its

Members, decommissioning the Limit Monitoring tool should allow NSCC to determine where to allocate the resources that would have been used on updating the Limit Monitoring technology to better react to the changing needs of market participants who rely on NSCC's central role in the securities market. This ability to allocate resources should, in turn, help NSCC to continue to promote the prompt and accurate clearance and settlement of securities transactions by NSCC, consistent with the requirements of Section 17A(b)(3)(F) of the Exchange Act.²⁰

Accordingly, and for the reasons stated above, the proposed changes are consistent with Section 17A(b)(3)(F).

V. Conclusion

Based on the foregoing, the Commission finds that the Proposed Rule Change is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act²¹ and the rules and regulations promulgated thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act²² that proposed rule changes SR–NSCC–2024–004 be, and hereby are, approved.²³

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁴

Vanessa A. Countryman,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–100487; File No. SR–CBOE–2023–063]

Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Withdrawal of a Proposed Rule Change To Amend the Exchange's Rules Relating to Position and Exercise Limits

July 10, 2024.

On November 29, 2023, Cboe Exchange, Inc. (the "Exchange" or "Cboe") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the

"Act"),¹ and Rule 19b–4 thereunder,² a proposed rule change to amend its rules relating to position and exercise limits. The proposed rule change was published for comment in the **Federal Register** on December 14, 2023.³ The Commission has received three comment letters regarding the proposed rule change.⁴ On January 23, 2024, pursuant to Section 19(b)(2) of the Act,⁵ the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to approve or disapprove the proposed rule change.⁶

On March 12, 2024, the Commission issued an order instituting proceedings pursuant to Section 19(b)(2)(B) of the Act⁷ to determine whether to approve or disapprove the proposed rule change.⁸ On June 6, 2024, pursuant to Section 19(b)(2) of the Act,⁹ the Commission designated a longer period of time within which to determine whether to approve or disapprove the proposed rule change.¹⁰ On July 3, 2024, the Exchange withdrew the proposed rule change (Cboe–2023–063).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹
