Draft National Spatial Data Infrastructure Strategic Plan

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice; request for public comment.

SUMMARY: The Federal Geographic Data Committee (FGDC) is soliciting public comments on the draft strategic plan for the National Spatial Data Infrastructure (NSDI).

DATES: Comments must be received by August 6, 2024.

ADDRESSES: Information about the FGDC is available at www.fgdc.gov. The draft strategic plan, along with instructions for submitting comments, is posted at: www.fgdc.gov/nsdi-plan. You may provide comments by either of the following methods:

- Electronically to nsdicomments@fgdc.gov.
- By mail to Federal Geographic Data Committee, 12201 Sunrise Valley Drive, Mail Stop 590, Reston, VA 20192.

FOR FURTHER INFORMATION CONTACT: Joshua Delmonico, U.S. Geological Survey (703–648–5752).

SUPPLEMENTARY INFORMATION: The FGDC is the interagency committee that serves as the lead entity in the executive branch for the development, implementation, and review of policies, practices, and standards relating to geospatial data. The FGDC operates under the authority of the Geospatial Data Act of 2018 (GDA) and Office of Management and Budget (OMB) Circular A–16. One of the FGDC’s responsibilities under the GDA is to “prepare and maintain a strategic plan for the development and implementation of the NSDI in a manner consistent with national security, national defense, and emergency preparedness program policies regarding data accessibility.” The GDA describes the NSDI as “the technology, policies, criteria, standards, and employees necessary to promote geospatial data sharing throughout the Federal Government, State, Tribal, and

local governments, and the private sector (including nonprofit organizations and institutions of higher education).”

The draft NSDI strategic plan has been developed with inputs from a variety of sources, including FGDC member agencies, the National Geospatial Advisory Committee, and geospatial partner organizations. The plan describes a broad national vision for the NSDI and includes goals and objectives for the sustainable development of the NSDI. Following the public comment period, a revised draft of the plan will be prepared for final review and adoption by the FGDC Steering Committee. Following adoption of the strategic plan, the FGDC will develop more detailed project plans for the goals and objectives in the strategic plan.

Kenneth M. Shaffer,

Deputy Executive Director, Federal Geographic Data Committee.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of
