Title: Advisory Circular (AC): Reporting of Laser Illumination of Aircraft.

Form Numbers: Advisory Circular 70-2B, Reporting of Laser Illumination of Aircraft.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on August 17, 2023 (88 FR 58633). Advisory Circular 70-2B provides guidance to civilian air crews on the reporting of laser illumination incidents and recommended mitigation actions to be taken in order to ensure continued safe and orderly flight operations. Information is collected from pilots and aircrews that are affected by an unauthorized illumination by lasers. The requested reporting involves an immediate broadcast notification to Air Traffic Control (ATC) when the incident occurs, as well as a broadcast warning of the incident if the aircrew is flying in uncontrolled airspace. In addition, the AC requests that the aircrew supply a written report of the incident and send it by fax or email to the Washington Operations Control Complex (WOCC) as soon as possible.

Respondents: Approximately 2339 pilots and crewmembers.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 10 minutes.

Estimated Total Annual Burden: 220 hours.

Issued in Washington, DC on July 16, 2024.

Sandra L. Ray,

Aviation Safety Inspector, AFS-260.

SUPPLEMENTARY INFORMATION: We published a **Federal Register** Notice with a 60-day public comment period on this information collection on March 22, 2024, at [89 FR 20529]. The comments and FHWA's responses are below:

Four comments were received, as shown below.

Comment received from Louisiana Department of Transportation and Development (LADOTD) on April 26, 2024. LADOTD requests that FHWA continue the service of issuance of Federal-aid eligibility letters. LADOTD expressed that it does not have staff and experience to determine MASH crashworthiness for roadside safety hardware and relies on the FHWA letters in order to decide of crashworthiness. LADOTD states that if states were to be solely responsible for determination of crashworthiness, it would be ideal to implement an online forum/message-board for the states to share data regarding crash tests reports, so that state subject matter experts could assist and or provide comments/ concerns regarding a particular device. FHWA acknowledge receiving the comment and will not respond to this comment because there is not contact information left.
