Abstract: The Drug Enforcement Administration (DEA) is a federal law enforcement agency charged with enforcing the controlled substances laws and regulations of the United States. Its principal responsibilities include investigation and prosecution of major violators of controlled substances laws.

Because of the nature of DEA's mission, and its status as a law enforcement agency, past use of illegal drugs by potential employees presents special concerns, and therefore the agency evaluates a job applicant's illegal drug use and abuse during the application process. Executive Order 12564 is supported in the DEA Pre-Employment Drug Policy that a history of illegal drug use or abuse may be a disqualification for employment with DEA.

This new form notifies job applicants of the DEA Pre-Employment Drug Policy and asks them to acknowledge their understanding of those requirements to

move forward in the employment process.

Abstract: Under the PRA, (44 U.S.C. 3501–3520) Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal Agencies to provide a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, DOJ is publishing notice of the proposed collection of information set forth in this document.
