AGENCY: Surface Transportation Board.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Surface Transportation Board (STB or Board) gives notice that it is requesting from the Office of Management and Budget (OMB) a reinstatement without change of Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery. This collection was

developed as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on the Board’s service delivery.

DATES: Comments on this information collection should be submitted by September 27, 2024.

ADDRESSES: Direct all comments to Chris Oehrle, PRA Officer, Surface Transportation Board, 395 E Street SW, Washington, DC 20423-0001, or to *pra@stb.gov*. When submitting comments, please refer to “Paperwork Reduction Act Comments, Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.” For further information regarding this collection, contact Michael Higgins, Acting Director, Office of Public Assistance, Governmental Affairs, and Compliance, at (202) 245-0284 or at *Michael.Higgins@stb.gov*. If you require an accommodation under the Americans with Disabilities Act, please call (202) 245-0245.

SUPPLEMENTARY INFORMATION: Comments are requested concerning: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up

costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose, or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Submitted comments will be summarized and included in the Board’s request for OMB approval.

Description of Collection

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Control Number: 2140-0019.

STB Form Number: None.

Type of Review: Extension without change.

Respondents: Customers and stakeholders of the Board.

Number of Respondents, Frequency, Estimated Time Per Response, and Total Burden Hours: A variety of instruments and platforms may be used to collect information from respondents. The estimated annual burden hours (277) are based on the number of collections we expect to conduct over the requested period for this clearance, as set forth in the table below.

ESTIMATED ANNUAL REPORTING BURDEN

Type of collection	Number of respondents	Annual frequency per response	Hours per response	Total hours
Focus Group	15	1	2	30
Comment Card/Brief Survey	200	2	.17	67
Surveys	150	2	.6	180

Needs and Uses: The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient and timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study.

This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning with issues about how the Board provides service to the public; or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Board and its customers and stakeholders. They will also allow

feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and

stakeholders on the Board's services will be unavailable.

The Board will only process a collection under this generic clearance if it meets the following conditions:

- the collections are voluntary;
- the collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;

- the collections are non-controversial and do not raise issues of concern to other Federal agencies;

- any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

- personally identifiable information is collected only to the extent necessary and is not retained;

- information gathered will be used only internally for general service improvement and program management purposes and not for release outside of the agency;

- information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- information gathered will yield qualitative information, and the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but will not yield data that can be generalized to the overall population. Such data uses would require more rigorous designs than the collections covered by this notice.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Under the PRA, a federal agency conducting or sponsoring a collection of information must display a currently valid OMB control number. Comments submitted in response to this notice may be made available to the public by the Board. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an electronic comment (e-file or email), your email address is automatically captured and may be accessed if your comments are made public. Please note

that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

Dated: July 23, 2024.

Eden Besera,
Clearance Clerk.
