#### Notice of Inventory Completion: Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Peabody Museum of Archaeology and Ethnology, Harvard University (PMAE) has completed an inventory of human remains and has determined that there are known lineal descendants connected to the human remains in this notice.

**DATES:** Repatriation of the human remains in this notice may occur on or after August 29, 2024.

**ADDRESSES:** Jane Pickering, Peabody Museum of Archaeology and Ethnology, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-2374, email [jpickering@fas.harvard.edu](mailto:jpickering@fas.harvard.edu).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the PMAE, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The National Park Service is not responsible for the determinations in this notice.

#### Abstract of Information Available

Based on the information available, human remains representing one individual has been reasonably identified. No associated funerary objects are present. The human remains

were collected at the Fort Totten Indian School, Benson County, ND, and are hair clippings collected from one individual, Eliza Ladoucer, who was recorded as being 16 years old and identified as "Chippewa." Orrin C. Gray took the hair clippings at the Fort Totten Indian School between 1930 and 1933. Gray sent the hair clippings to George Woodbury, who donated the hair clippings to the PMAE in 1935.

#### Lineal Descendant

Based on the information available and the results of consultation, lineal descendants are connected to the human remains described in this notice.

#### Determinations

The PMAE has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Taylor Rose Payer, Delima Payer, Tyra Payer, Lynda Johnson, and Betty Hamley are connected to the human remains described in this notice.

#### Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. The known lineal descendants connected to the human remains.
2. Any other lineal descendant not identified who shows, by a preponderance of the evidence, that the requestor is a lineal descendant.

Repatriation of the human remains in this notice to a requestor may occur on or after August 29, 2024. If competing requests for repatriation are received, the PMAE must determine the most appropriate requestor prior to repatriation. The PMAE is responsible for sending a copy of this notice to the lineal descendant and any other consulting parties.

*Authority:* Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: July 17, 2024.

#### Notice of Inventory Completion: University of Florida, Florida Museum of Natural History, Gainesville, FL

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of Florida-Florida Museum of Natural History (FLMNH) has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

**DATES:** Repatriation of the human remains and associated funerary objects in this notice may occur on or after August 29, 2024.

**ADDRESSES:** Michelle LeFebvre, University of Florida, Florida Museum of Natural History, 1659 Museum Road, Gainesville, FL 32611, telephone (352) 273-1917, email [mlefebvre@floridamuseum.ufl.edu](mailto:mlefebvre@floridamuseum.ufl.edu).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the FLMNH, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

#### Abstract of Information Available

Human remains representing, at least, one individual have been identified. The 605 associated funerary objects are invertebrate specimens, vertebrate specimens, pottery sherds, and a lithic point. The human remains and associated funerary objects were removed from the Calusa Island site (8LL45) located on Calusa Island in Lee County, FL, between February 10-14, 2020, by an archaeological investigation led by the FLMNH. The project included the excavation of a 1x2 m test unit along a heavily eroded edge of the coastal midden on the north shoreline of the island. The test unit was not completed during the 2020 field season and was backfilled for completion later that same year. The excavated
