II. Introduction

This notice informs the public of FHFA’s proposed revision to an existing system of records. This notice satisfies the Privacy Act requirement that an agency publishes a system of records notice in the **Federal Register** when there is an addition or change to an agency’s system of records. Congress has recognized that application of all requirements of the Privacy Act to certain categories of records may have an undesirable and often unacceptable effect upon agencies in the conduct of necessary public business.

Consequently, Congress established general exemptions and specific exemptions that could be used to exempt records from provisions of the Privacy Act. Congress also required that exempting records from provisions of the Privacy Act would require the head of an agency to publish a determination to exempt a record from the Privacy Act as a rule in accordance with the Administrative Procedure Act. Records and information in this system of records are not exempt from the requirements of the Privacy Act.

Pursuant to OMB Circular A-108, FHFA has not submitted a report describing the modified system of records covered by this notice to OMB

and Congress because the changes to the system are minor and administrative, and changes of this nature are not required to be reported.

III. Revised System of Records

The revised system of records notice is set out in its entirety and described in detail below. The proposed modification to the System makes the following non-substantive changes:
