### Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement, with change, of a previously approved collection for which approval has expired.

2. *Title of the Form/Collection:* 2023 Census of Medical Examiner and Coroner Offices (CMEC).

3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* The form number is CMEC-1. The applicable component within the Department of Justice is the Bureau of Justice Statistics (BJS), in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* *Affected Public:* Affected public are state and local government agencies. The 2023 CMEC is revised from the 2018 CMEC. BJS plans to field the 2023 CMEC from September 2024 through July 2025. Respondents will be the staff at MEC offices and Texas justices of the peace.

*Abstract:* The Bureau of Justice Statistics (BJS) 2023 Census of Medical Examiner and Coroner Offices (CMEC) will provide comprehensive statistics regarding the organizational structure, operations, policies and procedures, finances, and resources of the approximately 2,300 medical examiner and coroner (MEC) offices in 2023 nationwide. In the United States, medicolegal death investigations are provided by MEC offices whose purpose is to determine the cause and manner of death. As such, these offices are valuable, unique sources of information

to many stakeholders, including the federal government, local law enforcement, the court system, the public health community, and families. The 2023 CMEC will generate an enumeration of the number and type of MEC offices operating in the United States in 2023, staff at these offices, budget and capital resources, workload, policies and procedures regarding casework, specialized death investigations, records and evidence retention, resources, and operations. The 2023 CMEC will be the third administration of the survey since 2004. To provide more comprehensive statistics on the nation's medicolegal death investigations outside of the traditional MEC offices, the 2023 CMEC will also include the approximately 700 justices of the peace in Texas that make cause and manner of death determinations but were out of scope for the 2004 and 2018 CMECs. The 2023 CMEC survey was assessed by a panel of practitioners and subject matter experts and revised to ensure content is up-to-date and relevant to the medicolegal death investigation system today. The survey has also been revised to improve clarity and ease of answering questions. The 2023 CMEC will extend the national understanding of medicolegal death investigations and complement BJS's data collections involving publicly funded forensic crime laboratories and law enforcement core statistics.

5. *Obligation to Respond:* The obligation to respond is voluntary.

6. *Total Estimated Number of Respondents:* A projected 3,000 respondents (including 2,300 MEC offices and 700 justices of the peace in Texas) will complete form CMEC-1. In addition, an estimated 1,500 respondents will be contacted for data quality follow-up at 15 minutes (.25 hours) per respondent.

7. *Estimated Time per Respondent:* CMEC-1 will take an average of 90 minutes (1.5 hours) for each of the 3,000 respondents to complete. In addition, an estimated 1,500 respondents will be contacted for data quality follow-up at 15 minutes (.25 hours) per respondent.

8. *Frequency:* Each respondent will complete the CMEC-1 once.

9. *Total Estimated Annual Time Burden:* The total burden hours for this collection is 4,875.

10. *Total Estimated Annual Other Costs Burden:* \$1,296,618.

**SUPPLEMENTARY INFORMATION:** DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Section 432 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (also referred to as the Welfare Reform Act of 1996) (Pub. L. 104-193), requires states to verify through the U.S. Citizenship and Immigration Service (USCIS) the legal work authorization status of all aliens applying for benefits under certain Federally assisted and Federally funded programs unless their participation is waived. The USCIS verification system, commonly called the Systematic Alien Verification for Entitlement (SAVE) integrity control, is currently available to, and being utilized by, all states. To comply with its responsibilities under the Social Security Act (SSA), DOL must gather information from state agencies concerning alien claimant activities. The Alien Claims Activities Report is the source available for collecting this information. The following section explains DOL’s responsibilities under the SSA and the necessity for approval

of the attached Alien Claims Activities Report.

The ETA 9016 report allows DOL to determine the number of aliens filing for unemployment insurance (UI), the number of benefit issues detected, and the numbers of denials resulting from use of the USCIS SAVE system. From these data, DOL can determine the extent to which state agencies use the system, and the overall effectiveness and cost efficiency of the USCIS SAVE verification system. SSA section 1137(d) and (e) authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Control No. 1205-0268.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency’s estimate of the burden of the
