POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States—AGM-84L-1 Harpoon Block II Missiles

The Taipei Economic and Cultural Representative Office in the United States (TECRO) has requested to buy sixty (60) AGM-84L-1 Harpoon Block II missiles and four (4) ATM-84L-1 Harpoon Block II exercise missiles. Also included are Harpoon Guidance Control Units (GCUs); Harpoon Radar Seekers; Harpoon Radar Altimeters; Harpoon Captive Air Test Missiles (CATMs); containers; spare and repair parts; support and test equipment; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor representatives' technical assistance; engineering and logistics support services; and other related elements of logistics support. The estimated total cost is \$355 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will contribute to the modernization of the recipient's capability to meet current and future threats by providing a flexible solution to augment existing surface and air

defenses. The recipient will be able to employ a highly reliable and effective system to counter or deter maritime aggressions, coastal blockades, and amphibious assaults. This equipment will contribute to the recipient's goal of updating its military capability while further enhancing interoperability with the United States and other allies. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Boeing Company, St. Louis, MO. The recipient has requested offsets. At this time, agreements are undetermined and will be defined in negotiations between the recipient and the contractor.

Implementation of this proposed sale will not require the permanent assignment of any additional U.S. Government or contractor representatives to recipient. Support teams will travel to recipient on a temporary basis.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22-45

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The Harpoon missile is a non-nuclear tactical weapons system. It provides a day, night, and adverse weather, standoff air-to-surface capability and is an effective Anti-Surface Warfare missile.

2. The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop

countermeasures or equivalent systems, which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.

POLICY JUSTIFICATION

Pakistan—F-16 Case for Sustainment

The Government of Pakistan has requested to consolidate prior F-16 sustainment and support cases to support the Pakistan Air Force F-16 fleet by reducing duplicate case activities and adding additional continued support elements. Included are U.S. Government and contractor engineering, technical, and logistics services for follow-on support of Pakistan's F-16 fleet to include participation in F-16 Aircraft Structural Integrity Program, Electronic Combat International Security Assistance Program, International Engine Management Program, Engine Component Improvement Program, and other technical coordination groups; aircraft and engine hardware and software modifications and support; aircraft and engine spare repair/return parts, accessories and support equipment; classified and unclassified software and software support; publications, manuals, and technical documentation; precision measurement, calibration, lab equipment, and technical support services; studies and surveys; and other related elements of aircraft maintenance and program support. The estimated total cost is \$450 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a partner nation that is a force for political stability in the region by allowing Pakistan to retain interoperability with U.S. and coalition forces in ongoing

counterterrorism efforts and in preparation for future contingency operations.

The proposed sale will improve Pakistan's capability to meet current and future threats by continuing the sustainment of its F-16 fleet, which is the Pakistan Air Force's premier multi-role jet fighter and greatly improves Pakistan's ability to project combat power in support of counterterrorism through its robust air-to-ground capability. Pakistan will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Fort Worth, TX. There are no known offsets proposed in conjunction with this sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Pakistan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
