Certain Quartz Surface Products From the People’s Republic of China: Preliminary Results of 2021–2023 Antidumping Duty and 2021–2022 Countervailing Duty Administrative Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that certain Malaysian exporters of certain quartz surface products (quartz surface products) continue to be ineligible to participate in the scope certification process established for the antidumping duty (AD) and countervailing duty (CVD) orders on quartz surface products from the People’s Republic of China (China) for all imports of quartz surface products from Malaysia. Specifically, we find that these Malaysian exporters did not demonstrate that the quartz slab used to produce their exports to the United States was sourced from a country other than China. Interested parties are invited to comment on these preliminary results of review.

DATES: Applicable August 5, 2024.

FOR FURTHER INFORMATION CONTACT: Ajay Menon, AD/CVD Operations, Office IX, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–0208.

Periods of Review⁶

The period of review (POR) of the AD review is November 4, 2021, through June 30, 2023. The POR of the CVD review is November 4, 2021, through December 31, 2022.

Methodology and Preliminary Results

Commerce is conducting these reviews in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). We preliminarily determine that Bada Industries, Karina Stone, Unique Stone Sdn. Bhd. (Unique Stone), and Universal Quartz, have not demonstrated that the quartz slab used to produce their Malaysian exports to the United States during the POR was sourced from a country other than China. As a result, we preliminarily find that Bada Industries, Karina Stone, Unique Stone, and Universal Quartz continue to be ineligible to participate in the certification process for quartz surface products from Malaysia.
