Special Accommodations: These meetings are physically accessible to people with disabilities. Requests for special accommodations may be directed to the ORAP DFO no later than 12 p.m. EDT on August 19, 2024.

Matters to be Considered: During the ORAP meeting on Dec. 13–14, 2023, the Ocean Policy Committee (OPC) requested that the ORAP advise on areas of opportunity for partnership (such as through the National Oceanic Partnership Program) on the topic of emerging technology (which could include Artificial Intelligence/Machine Learning, eDNA, and similar technology) with ocean industry and other sectors over the next 5–10 years. The OPC also requested that ORAP self-select another topic to address. The ORAP members agreed that the topic of accessible, inter-operable, interdisciplinary, and trusted ocean data to meet research and user needs is critical and deserves ORAP immediate attention. At this meeting on September 4–5, 2024, ORAP members will hear from the ORAP subgroups on the two OPC tasks progress and hear from Native Hawaiian and Pacific Islander communities on Indigenous perspectives, knowledge, and practices related to the Ocean, in particular, insights on emerging technology and data.

Meeting materials, including work products, will be made available on the ORAP website: <https://www.noaa.gov/ocean-research-advisory-panel/orap-public-meetings>.

SUPPLEMENTARY INFORMATION:

Agenda

The Atlantic Herring Committee and Advisory Panel will meet to discuss the following items: Atlantic Herring Specifications for 2025–2027: Receive an update on the development of this action, including: (1) a report from the Plan Development Team and ASMFC’s Technical Committee, (2) an overview of the 2024 management track stock assessment, (3) a summary of the Scientific and Statistical Committee’s recommendations, and (4) a summary of the ASMFC Atlantic Herring Board’s discussions. In response to the results of the 2024 management track stock assessment and to meet conservation and management objectives for Atlantic herring, engage in Committee discussion on whether to recommend additional management measures, including the possibility of initiating a framework adjustment or considering in-season adjustments for 2024 and 2025 catch limits, along with any other recommendations as appropriate. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council’s intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy

of the recording is available upon request.

SUPPLEMENTARY INFORMATION: Section 9 of the Endangered Species Act (ESA) and Federal regulations prohibits the “taking” of a species listed as endangered or threatened. The ESA defines “take” to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances, to take listed species when the takes are incidental to, and not the purpose of, otherwise lawful activities. Section 10(a)(1)(B) of the ESA provides for authorizing incidental take of listed species. The regulations for issuing incidental take permits for
