

250,000 deposit accounts, or \$20 billion in total assets.<sup>32</sup> In 2017, the FDIC adopted 12 CFR part 370 to implement additional measures to ensure prompt and accurate payment of deposit insurance to depositors of the larger IDIs that qualify as covered institutions.<sup>33</sup>

The FDIC generally relies on the failed IDI's deposit account records to identify deposit owners and the right and capacity in which deposits are insured.<sup>34</sup> Section 7(a)(9) of the FDI Act authorizes the FDIC to take action as necessary to ensure that each IDI maintains, and the FDIC receives on a regular basis from such IDI, information on the total amount of all insured deposits and uninsured deposits at the IDI.<sup>35</sup> Part 370 generally requires covered institutions to maintain complete and accurate records regarding the ownership and insurability of deposits (except as otherwise provided) and to have an information technology system that can be used to calculate deposit insurance coverage in the event of failure. These capabilities would facilitate the FDIC's prompt payment of deposit insurance and enhance the FDIC's ability to implement the least costly resolution of these covered institutions.

#### *H. Deposit Liabilities on Other Data Collections*

Certain institutions report information on deposit liabilities through other information collections, including the Complex Institution Liquidity Monitoring Report (FR 2052a), Report of Deposits and Vault Cash (FR 2900), the Systemic Risk Report (FR Y-15), and the Weekly Report of Selected Assets and Liabilities of Domestically Chartered Commercial Banks and U.S. Branches and Agencies of Foreign Banks (FR 2644). However, reporting requirements for most of these data collections are limited to the largest institutions or a subset of all IDIs. In most cases, the granularity of the data collected on deposits in these reports may also be limited in informing the efforts herein.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the *Federal Register* concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the

collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Transitional Coverage and Retroactive Medicare Part D Coverage for Certain Low-Income Beneficiaries through the Limited Income Newly Eligible Transition (LI NET) Program; *Use:* Section 118 of the Consolidated Appropriations Act, 2021 (CAA) (Public Law 116–260) enacted on December 27, 2020, amended section 1860D–14 of the Social Security Act (the Act) (42 U.S.C. 1395w–114) and authorized CMS to make transitional coverage and retroactive Medicare Part D coverage for certain low-income beneficiaries, called the Limited Income Newly Eligible Transition (LI NET) program a permanent part of the Part D program. The LI NET program under this statute must begin no later than January 1, 2024.

CMS established the Medicare Part D Demonstration for Retroactive and Point-of-Sale Coverage for Certain Low-Income Beneficiaries (also known as Medicare’s Limited Income Newly Eligible Transition (LI NET) demonstration). The LI NET demonstration consolidates administration of transitional and retroactive Part D coverage for eligible beneficiaries to a single Part D sponsor. The LI NET demonstration provides an exception to the 36-month maximum period of retroactive enrollment if there is a Medicaid determination within the last 90 days that confers Medicaid eligibility going back further than 36 months. In these situations, LI NET enrollment under the demonstration goes back to the start of Medicaid eligibility.

The information provided by LI NET beneficiaries is largely paper based, such as showing a Medicaid eligibility letter to a pharmacist or sending a signed direct reimbursement request through the mail or by fax. Beneficiaries could also opt to email a digital copy of their documentation to the LI NET sponsor. *Form Number:* CMS–10831 (OMB control number: 0938–1441); *Frequency:* Occasionally; *Affected Public:* Individuals and Households, Private Sector and Business or other for-profit; *Number of Respondents:* 73,705; *Total Annual Responses:* 110,686; *Total Annual Hours:* 11,701.
