SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (E.O.) 10485, as amended by E.O. 12038. On April 10, 2023, the authority to issue such permits was delegated to the DOE's Grid Deployment Office by Delegation Order No. S1–DEL–S3–2023 and Redelegation Order No. S3–DEL–GD1–2023.

On January 12, 2017, DOE issued Presidential Permit No. PP–412, authorizing ITC Lake Erie Connector to construct, connect, operate, and maintain a 345-kilovolt (kV) transmission line at the international border between the United States and Canada. On March 29, 2024, LEC Transmission filed an application with DOE (Application or App.) requesting to amend Presidential Permit No. PP–412

Before a Presidential permit may be issued, DOE must determine whether the proposed action is in the public interest. In making that determination, DOE will consider the environmental impacts of the proposed action (*i.e.*, granting the Presidential permit, with any conditions and limitations, or denying the permit) pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021); determine the Applicant's proposed project's impact on electric reliability by ascertaining whether the proposed project would adversely affect the operation of the U.S. electric power supply system under normal and

contingency conditions; and weigh any other factors that DOE may also consider relevant to the public interest. DOE also must obtain the favorable recommendation of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

LEC Transmission's Application may be reviewed or downloaded electronically at www.energy.gov/gdo/pending-applications-0 or by emailing Electricity.Exports@hq.doe.gov. Copies of this Application will be made available, upon request, by accessing the program website at <https://www.energy.gov/gdo/pending-applications-0> or by emailing Electricity.Exports@hq.doe.gov.
