

93–234). The NFIA requires FEMA to provide flood insurance at full actuarial rates, reflecting the complete flood risk to structures built or substantially improved, on or after the effective date for the initial Flood Insurance Rate Map for the community, so that the risks associated with buildings in flood-prone areas are borne by those located in such areas and not by taxpayers at large. In accordance with the Flood Disaster Protection Act of 1973, the purchase of flood insurance is mandatory when Federal or Federally-related financial assistance is being provided for acquisition or construction of buildings located, or to be located, within FEMA-identified special flood hazard areas of communities that participate in the NFIP.

FEMA proposes minor revisions to the existing paper forms completed by licensed insurance agents and the addition of a new electronic form that property owners can complete online.

This proposed information collection previously published in the **Federal Register** on April 11, 2024, at 89 FR 25642 with a 60-day public comment period. One public comment discussing wildfires was received, but FEMA considers this comment to not be germane to this NFIP information collection. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 30-Day notice of new collection and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. FEMA invites the general public to take this opportunity to comment on a new information collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, this notice seeks comments concerning FEMA's sharing of information that includes personally identifiable information (PII) and sensitive personally identifiable information (SPII) of disaster survivors.

DATES: Comments must be submitted on or before September 13, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Director, Information Management Division, 500 C Street SW, Washington, DC 20472, email address FEMA-Information-Collections-Management@fema.dhs.gov or Audrey Carter, Government Information Specialist, FEMA, at 202–288–6421 or audrey.carter@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The Privacy Act of 1974 (Pub. L. 93–579, as amended) (5 U.S.C. 552a) establishes a Code of Fair Information Practice that governs the collection, maintenance,

use, and dissemination of personally identifiable information about individuals that is maintained in systems of records by Federal Agencies.

The E-Government Act of 2002 (Pub. L. 107–347) (5 U.S.C. chapter 37; 44 U.S.C. 3501–3606) improves the management and promotion of electronic government services and processes by establishing a Federal Chief Information Officer within the Office of Management and Budget (OMB), and by establishing a framework of measures that require using internet-based information technology to improve citizen access to government information and services, and for other purposes.

The Robert T. Stafford Disaster Relief and Emergency Assistance Act (Pub. L. 93–288, as amended), 42 U.S.C. 5121–5207 (“Stafford Act”) provides broad authority to the Federal Emergency Management Agency (FEMA) to carry out its mission of helping people before, during, and after disasters. FEMA shares information, to include PII and SPII, to meet the Agency’s mission to: “reduce the loss of life and property and protect our institutions from all hazards by leading and supporting the nation in a comprehensive, risk-based emergency management program of mitigation, preparedness, response, and recovery.” As part of responding to requests to share information, FEMA engages in an interactive process with entities to determine the validity and scope of their data sharing request.

FEMA is creating this generic information collection to document the instruments FEMA uses to outline contractual sharing of protected information with external partners in disaster and non-disaster environments. This generic information collection will ensure all OMB-approved expiration dates are aligned across FEMA’s Privacy Division and will also allow FEMA to update individual instruments as sub-collections under this generic collection instead of revising entire information collections and analyze individual instruments for burden reduction.

This proposed information collection previously published in the **Federal Register** on April 11, 2024, at 89 FR 25641 with a 60-day public comment period. No comments were received. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.
