[Docket Number USCG-2024-0094]

RIN 1625-AA00

#### Safety Zone; Kentucky River, Frankfort, KY

**AGENCY:** Coast Guard, Department of Homeland Security (DHS).

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing an emergency temporary safety zone for all navigable waters of the Kentucky River extending from mile marker (MM) 65.5 to MM 66 near Frankfort, KY. This emergency safety zone is needed to protect life, vessels, and the marine environment due to stability concerns of the Broadway Bridge near MM 65.5. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port Sector Ohio Valley (COTP) or a designated representative.

**DATES:** This rule is effective without actual notice from August 14, 2024, until September 6, 2024. For the purposes of enforcement, actual notice will be used from August 9, 2024, until August 14, 2024.

##### I. Table of Abbreviations

CFR Code of Federal Regulations  
COTP Captain of the Port Sector Ohio Valley  
DHS Department of Homeland Security  
FR Federal Register  
NPRM Notice of proposed rulemaking  
§ Section  
U.S.C. United States Code

##### II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule under authority in 5 U.S.C. 553(b)(B). This statutory provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." The Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable and contrary to the public interest. On August 5, 2024, a 50-foot section of concrete walkway from the Broadway Bridge near MM 65.5 fell into the river, and continues to deteriorate, causing a hazard to navigation. The safety zone must be established immediately (as of August 9, 2024) to protect people and vessels from the concerns of further falling debris. Insufficient time exists to provide a reasonable comment period and then consider those comments before issuing the rule. This safety zone may include closures and/or navigation restrictions and requirements that are vital to maintaining safe navigation on the Kentucky River during response efforts and the hazards of falling debris. Therefore, delaying the effective date for this emergency safety zone to complete the NPRM process would also be contrary to the public interest as it would delay the safety measures vital to safe navigation.

Also, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be contrary to public interest because immediate action is needed to protect personnel, vessels, and the marine environment from

potential hazards created by the unstable bridge and falling debris.

##### III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231). The Captain of the Port Sector Ohio Valley (COTP) has determined that potential hazards associated with falling debris from the Broadway Bridge, as is currently occurring, along with repairs and potential demolition activities beginning immediately, will be a safety concern for anyone within MM 65.5 to MM 66 on the Kentucky River. This rule is needed to protect personnel, vessels, and the marine environment in the navigable waters within the safety zone while the threat of continued falling debris exists and repairs or demolition activities exist.

##### IV. Discussion of the Rule

The Coast Guard is establishing a temporary emergency safety zone for all navigable waters on the Kentucky River from Mile Marker (MM) 65.5 and MM 66, extending the entire width of the Kentucky River. Transit into and through this area is prohibited for all traffic beginning August 9, 2024, and will continue through September 6, 2024, or until the hazard has been mitigated. The duration of the zone is intended to protect personnel, vessels, and the marine environment in these navigable waters while the threat of continued falling debris exists and repairs or demolition activities exist. The COTP will terminate the enforcement of this safety zone before September 6, 2024, if the bridge has been demolished. Entry into this safety zone is prohibited unless specifically authorized by the COTP or their designated representative. A designated representative is a commissioned, warrant, or petty officer of the U.S. Coast Guard (USCG) assigned to units under the operational control of USCG Sector Ohio Valley.

Requests for entry will be considered and reviewed on a case-by-case basis. The COTP may be contacted by telephone at 502-779-5422 or can be reached by VHF-FM channel 16. Persons and vessels permitted to enter this safety zone must transit at their slowest safe speed and comply with all lawful directions issued by the COTP or the designated representative.
