SUMMARY: This agenda announces the regulatory actions the Department of Defense (DoD) plans to take in the next 12 months and those regulatory actions completed since the publication of the Fall 2023 Unified Agenda. It was developed under the guidelines of Executive Order 12866, “Regulatory Planning and Review,” as amended by Executive Order 14094, “Modernizing Regulatory Review” and Executive Order 13563, “Improving Regulation and Regulatory Review.” This agenda includes regulatory actions that support the Administration’s regulatory priorities, the Secretary of Defense’s top priorities to defend the Nation, take care of our people, and succeed through teamwork, as well as those priorities of the National Defense Strategy. These actions include efforts to promote the country’s economic resilience; address healthcare issues; support underserved communities and improve small business opportunities; promote competition in the American economy; address issues impacting the Federal workforce; support national security efforts, especially safeguarding Federal Government information and information technology systems; support the climate change emergency; and address issues impacting military families. Members of the public may submit comments on individual proposed and interim final rulemakings at www.regulations.gov during the comment period that follows publication in the **Federal Register**.

This agenda updates the report published on February 9, 2024, and includes regulations expected to be issued and under review over the next 12 months. The next agenda will publish in the fall of 2024.

The complete Unified Agenda will be available online at www.reginfo.gov.

In accordance with the Regulatory Flexibility Act (5 U.S.C. 602), which requires agencies to publish its regulatory flexibility agendas in the **Federal Register**, the Department of

Defense’s printed agenda entries in the **Federal Register** include only:

(1) rules that are in the Agency’s regulatory flexibility agenda, in accordance with the Regulatory Flexibility Act, because they are likely to have a significant economic impact on a substantial number of small entities; and

(2) Any rules that the Agency has identified for periodic review under section 610 of the Regulatory Flexibility Act.

Although printing of these entries is limited to fields that contain information required by the Regulatory Flexibility Act’s agenda requirements, additional information on these entries is in the Unified Agenda available online.

SUPPLEMENTARY INFORMATION: This edition of the Unified Agenda of Federal Regulatory and Deregulatory Actions reports on actions planned by the Office of the Secretary of Defense, the Military Departments, the Office of the Under Secretary of Defense for Acquisition and Sustainment for procurement-related actions, and the U.S. Army Corps of Engineers.

This agenda also identifies rules impacted by the:

- a. Regulatory Flexibility Act.
- b. Paperwork Reduction Act of 1995.
- c. Unfunded Mandates Reform Act of 1995.

Generally, rules discussed in this agenda will contain five sections: (1) pre-rule stage; (2) proposed rule stage; (3) final rule stage; (4) completed actions; and (5) long-term actions. Where certain regulatory actions indicate that small entities are affected, the effect on these entities may not necessarily have significant economic impact on a substantial number of these entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601(6)).

The publishing of this agenda does not waive the applicability of the military affairs exemption in section 553

of title 5 U.S.C. and section 3 of Executive Order 12866.

Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, Department of Defense.

Legal Authority: 41 U.S.C. 1303; Pub. L. 116-92, sec. 1648

Abstract: DoD is amending an interim rule to implement the CMMC framework 2.0 in order to protect against the theft of intellectual property and sensitive information from the Defense Industrial Base (DIB) sector. The CMMC framework, as defined in Title 32 of the Code of Federal Regulations (CFR), assesses compliance with applicable information security requirements. This rule provides the

Department with assurances that a DIB contractor can adequately protect sensitive unclassified information at a level commensurate with the risk, accounting for information flow down to its subcontractors in a multi-tier supply chain.
