SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a renewal of a currently approved information collection through the *Environmental Compliance Questionnaire for National Oceanic and Atmospheric Administration Federal Funding Opportunity Applicants* (Questionnaire). This Questionnaire is used by the National Oceanic and Atmospheric Administration (NOAA) to collect information about proposed activities for the purpose of complying with the National Environmental Policy Act (“NEPA,” 42 U.S.C. 4321 *et seq.*) and other environmental compliance requirements associated with proposed activities. NEPA requires federal agencies to complete an environmental analysis for all major federal actions, including funding non-federal activities through federal financial assistance awards where federal participation in the funded activity is expected to be significant. The Questionnaire is used in conjunction with NOAA Notices of Funding Opportunity (NOFO).

The NOFO will indicate the specific questions to which an applicant must respond in one of three ways: (1) the applicable questions are inserted directly into the NOFO with reference to the OMB Approval Number (0648–0538) for this form; (2) the NOFO will specify which questions (*e.g.*, 1, 2) an applicant must answer, with the entire OMB-approved Questionnaire attached to the NOFO; or (3) applicants to be recommended for funding will be required to answer relevant questions from the Questionnaire. The federal program officer will determine which questions are relevant to each specific applicant. Answers must be provided before the application can be submitted for final funding approval. This Questionnaire has been not revised since 2021.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NMFS Southeast Region proposes to revise parts of the information collections currently approved under OMB Control Number 0648–0016 to comply with a court order from the U.S. Fifth Circuit Court of Appeals, which effectively invalidated previous regulations implemented by NMFS. The

NMFS Southeast Region manages commercial and recreational fisheries in Federal waters of the Gulf of Mexico (Gulf), South Atlantic, and Caribbean under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801 *et seq.*, through regulations implemented at 50 CFR part 622. Participants in most of these federally managed fisheries are required to keep and submit logbooks of their fishing effort and catch from their fishing trips. Some fishermen on these vessels also provide information on the species and quantities of fish, shellfish, marine turtles, and marine mammals that are caught and discarded or have interacted with the fishing gear. These fishermen may also provide information about dockside prices, trip operating costs, and annual fixed costs.

NMFS is developing a final rule to remove the regulations for the Gulf electronic reporting program applicable to an owner or operator of a recreational charter vessel or headboat (for-hire vessel) with such a recreational permit to fish for federally managed Gulf reef fish or Gulf coastal migratory pelagic species. The final rule will reinstate regulations for recordkeeping and reporting that were in effect on January 4, 2021, before the effective dates of the invalidated rules. Those historical regulations can be viewed at this website: <https://www.ecfr.gov/01-04/title-50/chapter-VI/part-622?toc=1>. See subparts B and Q to part 622.

Because the rulemaking action results from a court order, NMFS does not have discretion to change the recordkeeping and reporting regulations from those in effect on January 4, 2021, which consisted of the information collection requirements previously approved by OMB and implemented by NMFS. Therefore, this revision would: 1. remove from the approved information collections all components associated with the Gulf for-hire electronic reporting program, and 2. reinstate those previously approved recordkeeping and reporting requirements, the number of respondents, responses, and the time and cost burdens for which were at a much smaller scale, without changes to other information collections under OMB Control Number 0648–0016, Southeast Region Logbook Family of Forms.

II. Method of Collection

The information is submitted on paper forms and electronic transmissions.
