#### Abstract of Information Available

Human remains representing, at minimum, two individuals were removed from 45–SJ–215, Hunter Bay, Lopez Island in San Juan County, WA. Associated with the human remains, are 15 newly identified funerary objects, consisting of stone, bone and antler tools and a modified clay concretion.

The description provided in the original WWU NAGPRA Inventory has been updated to include an MNI, as well as the Smithsonian trinomial. In addition, no Associated Funerary Objects were reported in the original WWU NAGPRA Inventory, however, during the WWU 2018–2020 Repatriation and Rehousing Project, 15 items were identified as associated funerary objects by Lummi Cultural Specialist, R. Tom. No known individuals were identified. No hazardous chemicals are known to have been used to treat the human remains or associated funerary objects while in the custody of WWU.
