Background: Each year, NHTSA executes a broad array of research programs in support of Administration, DOT, and agency priorities. The Agency's research portfolio covers a diverse range of program areas pertaining to vehicle safety, including the safety consequences of novel automotive technologies that aim to improve the crash avoidance and/or occupant protection characteristics of motor vehicles; and behavioral safety, which includes safety countermeasures that pertain to the behavior and actions of drivers, occupants, and other road users, including vulnerable populations.

This public meeting is intended to provide public and stakeholder outreach regarding research activities at NHTSA for both vehicle and behavioral safety, including expected near-term deliverables. NHTSA technical research staff will discuss projects recently concluded or underway and may also introduce early-stage projects. As time allows, there will be an opportunity for session attendees to submit questions via the chat feature in the broadcast medium.

Presentations will be displayed during the panel sessions and will be posted to the docket ([regulations.gov](http://www.regulations.gov)) after the meeting. Updates on this event will be available at <https://www.nhtsa.gov/events/nhtsa-safety-research-portfolio-public-meeting-fall-2024> and NHTSA recommends checking back periodically for updates or potential schedule changes.

Discussion of research projects will occur in the form of technical panel presentations. Participants will be able to register for any or all of the days and be able to join the Zoom webinar in parts or for full sessions throughout each day.

The Agency invites comments on the information presented as well as on the Agency's research priorities, research goals, and additional research gaps/needs the public may believe NHTSA should be addressing. Select project work may be posted to the docket for which comments are also welcome. Slides presented at the public meeting will be posted to the docket subsequently for public access and a recording of the meeting will be made

available after the event for offline viewing.
