DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

9 CFR Part 201

[Doc. No. AMS–FTPP–21–0046]

RIN 0581–AE04

Fair and Competitive Livestock and Poultry Markets

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; extension of comment period.

SUMMARY: The Agricultural Marketing Service (AMS) is extending the public comment period an additional 15 days regarding proposed revisions to the regulations under the Packers and Stockyards Act, 1921, that promote fair and competitive markets in the livestock, meats, poultry, and live poultry markets.

DATES: The comment period for the notice originally published on June 28, 2024 (89 FR 53886) is extended. Comments must be submitted on or before September 11, 2024.

ADDRESSES: Comments must be submitted through the Federal e-rulemaking portal at <https://www.regulations.gov> and should reference the document number and the date and page number of this issue of the **Federal Register**. AMS strongly prefers comments be submitted electronically. However, written comments may be submitted (*i.e.*, delivered, not postmarked) via mail on or before September 11, 2024, to Docket No. AMS–FTPP–21–0046, S. Brett Offutt, Chief Legal Officer, Packers and Stockyards Division, USDA, AMS, FTPP; Room 2097–S, Mail Stop 3601, 1400 Independence Ave. SW, Washington, DC 20250–3601. All comments submitted in response to this proposed rule will be included in the record and will be made available to the public, as submitted, including any identifying information. Comments can be submitted anonymously by entering

“N/A” in the fields that would identify the commenter. Pursuant to 5 U.S.C. 553(b)(4), a plain language summary of this proposed rule is available on <https://www.regulations.gov> in the docket for this rulemaking.

FOR FURTHER INFORMATION CONTACT: S. Brett Offutt, Chief Legal Officer/Policy Advisor, Packers and Stockyards Division, USDA AMS Fair Trade Practices Program, 1400 Independence Ave. SW, Washington, DC 20250; Phone: (202) 690–4355; or email: s.brett.offutt@usda.gov.

SUPPLEMENTARY INFORMATION: A proposed rule published in the **Federal Register** on June 28, 2024 (89 FR 53886), would revise the regulations under the Packers and Stockyards Act (7 U.S.C. 181 *et seq.*) at 9 CFR part 201. Under the proposal, USDA AMS would amend the regulations under the Packers and Stockyards Act of 1921 (the P&S Act or the Act) to clarify the unfair practices that the P&S Act prohibits. The proposed rule would define unfair practices as conduct that harms market participants and conduct that harms the market.

The notice of proposed rulemaking established a 60-day comment period, ending August 27, 2024. During the initial comment period, AMS received requests from several industry organizations asking for additional time to submit comments and citing the proposed rule’s impact across different species, regions, and business models, including possible legal and economic impacts on the business relationships between livestock suppliers and packers, and contract farmers and poultry integrators. AMS is extending the comment period related to this proposed rule. Comments must be submitted on or before September 11, 2024.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish Class E airspace extending upward from 700 feet above the surface at The Ottawa Executive Airport, Zeeland, MI, to support IFR operations at this airport.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it received on or before the closing date for comments. The FAA

will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT post these comments, without edit, including any personal information the commenter provides, to www.regulations.gov as described in the system of records notice (DOT/ALL-14FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Incorporation by Reference

Class E airspace is published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. These updates would be published subsequently in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing to amend 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface to within a 6.4-mile radius of The Ottawa Executive Airport, Zeeland, MI.

The FAA is proposing this action due to the development of new public instrument procedures at this airport and to support IFR operations.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

BILLING CODE 4910-13-P

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[EPA-R06-OAR-2022-0311; FRL-12095-01-R6]

Approval and Promulgation of Air Quality Implementation Plans; Texas; Federal Implementation Plan for the Rusk-Panola Sulfur Dioxide Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing a Federal Implementation Plan (FIP) to establish enforceable emission limits for attaining the 2010 1-hour sulfur dioxide (SO₂) primary national ambient air quality standard (NAAQS) for the Rusk and Panola Counties, Texas nonattainment area (Rusk-Panola area). The EPA is proposing the FIP to address deficiencies in Texas' 2022 Rusk-Panola area attainment State Implementation Plan (SIP) revision, as identified in the EPA's proposed limited approval and limited disapproval of that SIP, and which can be found in the same docket as this action. Under the limited approval, if finalized, the entire SIP submission would become federally enforceable. The limited disapproval, if finalized, would trigger the 2-year deadline for EPA to finalize a FIP that addresses the deficiencies in the SIP as well as the 18-month deadline to impose mandatory emission offsets and highway funding sanctions. The EPA is proposing to determine that the proposed FIP would provide for attainment of the 2010 1-hour primary SO₂ NAAQS in the Rusk-Panola SO₂ nonattainment area and meets the other applicable requirements under the Clean Air Act (CAA).

DATES: Comments must be received on or before October 7, 2024.

Virtual Public hearing: The EPA will hold a virtual public hearing to solicit comments on September 5, 2024. The last day to pre-register to speak at the hearing will be on September 3, 2024. On September 4, 2024, the EPA will post a general agenda for the hearing that will list pre-registered speakers in approximate order at <https://www.epa.gov/tx/rusk-panola-so2-nonattainment-area>.
