0960–NEW. Social Security Income Simplification Process Phase I (iSSI). Overview

SSA is embarking on a multi-year effort to simplify the Supplemental Security Income (SSI) application process. This presents a formidable challenge, based on the inherent complexity of the program.

The SSI program legally requires SSA to request extensive amounts of information from SSI applicants to make accurate eligibility and payment determinations. This is because the SSI program is, by statute, intended to provide assistance based on the current needs of a specific individual, with eligibility and payment amounts frequently fluctuating. Accordingly, it takes a significant number of questions to accurately identify an applicant’s situation and needs. The framework of the SSI program will not change regardless of the type of application claimants must complete. However, we recognize that the current process is burdensome and challenging for the public, and we are doing what we can to reduce this burden and improve access to SSI.

As part of this effort, our goal is to develop a fully online, simplified SSI application process. As an important step toward that goal, we are currently planning to implement in late 2024 the SSI Simplification Phase I initiative, or iSSI. iSSI will be a pathway in the existing Social Security internet Claim (iClaim) System (OMB No. 0960–0618) that will streamline and shorten the SSI application for Title XVI 1 disability applicants. iClaim is an online portal the public can use to apply for multiple types of Social Security benefits. Currently, this includes Retirement, Spouse’s, and Disability Insurance benefits (DIB) (Title II SSDI). Although
