

with ATCA. HMS implementing regulations are at 50 CFR part 635. NMFS issues permits to fishing vessels and dealers in order to collect information necessary to comply with domestic and international obligations, secure compliance with regulations, and disseminate necessary information. Regulations at § 635.4 require that vessels participating in commercial and recreational fisheries for Atlantic HMS and dealers purchasing Atlantic HMS from a vessel obtain a Federal permit issued by NMFS.

This action addresses the renewal of permit applications currently approved under PRA 0648–0327. Vessel permits include Atlantic Tunas (except HMS limited access permits, including longline permits, and the HMS Caribbean Smallboat Permit, which are approved under PRA 0648–0205), HMS Charter/Headboat, HMS Angling, and Swordfish General Commercial permits. This action also includes the one-time requirement for commercial vessels greater than 20 meters in length to obtain an International Maritime Organization/Lloyd's Registry (IMO/LR) number.

This action is also being revised to include a new requirement for all HMS vessel permit applications to be submitted online starting in 2025, and the one-time requirement for all permit applicants to set up an account on the HMS permits website. The latter was implemented to make the program compatible with current federal data security requirements, and will make it easier for permit holders with multiple vessel permits to manage their permits by linking them all within a single account. Finally, the action is revised to remove the ability to submit an

application for an Atlantic Tunas Purse Seine category permit, as the Atlantic Tunas Purse Seine category was discontinued as part of Amendment 13 to the 2006 Consolidated HMS Fishery Management Plan after years of inactivity in the bluefin tuna fishery. More information on that action can be found in the Amendment 13 final rule (87 FR 59966, October 3, 2022).

The burden estimates in this renewal are also being updated to reflect increases in the total number of permits issued each year, and a \$1 increase in the price of HMS vessel permits to \$27 per permit, due to increased costs associated with maintaining and executing the program.

Affected Public: Individuals or households; Business or other for-profit organizations.

Frequency: Annually for HMS permits; Once for a vessel IMO/LR number.

Respondent's Obligation: Mandatory.
Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*).

February 27, 2023

The Honorable Kevin McCarthy
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 23-18, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Australia for defense articles and services estimated to cost \$506 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

James A. Hursch
Director

BILLING CODE 6001-FR-C

Transmittal No. 23-18

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Australia

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$302 million
Other	\$204 million

TOTAL \$506 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):
Up to sixty-three (63) Advanced Anti-Radiation Guided Missiles-Extended Range (AARGM-ERs)
Up to twenty (20) AARGM-ER Captive Air Training Missiles (CATMs)

Non-MDE:

Also included are AGM-88G Advanced Anti-Radiation Guided

Missile-Extended Range Dummy Air Training Missiles (AARGM-ER DATMs), containers, component parts and support equipment; Repair of Repairables; software (Classified and Unclassified); publications (Classified and Unclassified); training (Classified and Unclassified); transportation; U.S. Government and contractor engineering support; and other related elements of logistical and

program support.

(iv) *Military Department: Navy (AT-P-ASA)*

(v) *Prior Related Cases, if any: None*

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None*

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex*

(viii) *Date Report Delivered to Congress: February 27, 2023*

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Australia—Advanced Anti-Radiation Guided Missiles-Extended Range (AARGM-ER)

The Government of Australia has requested to buy up to sixty-three (63) Advanced Anti-Radiation Guided Missiles-Extended Range (AARGM-ERs); and up to twenty (20) AARGM-ER Captive Air Training Missiles (CATMs). Also included are AGM-88G Advanced Anti-Radiation Guided Missile-Extended Range Dummy Air Training Missiles (AARGM-ER DATMs), containers, component parts and support equipment; Repair of Repairables; software (Classified and Unclassified); publications (Classified and Unclassified); training (Classified and Unclassified); transportation; U.S. Government and Contractor engineering support; and other related elements of logistical and program support. The estimated total cost is \$506 million.

This proposed sale will support the foreign policy and national security objectives of the United States. Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability.

The proposed sale will improve Australia's capability to meet current and future threats by suppressing and destroying land or sea-based radar emitters associated with enemy air defenses. This capability denies the

adversary the use of its air defense systems, thereby improving the survivability of Australia's tactical aircraft. Australia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime U.S. contractor will be the Javelin Joint Venture between Lockheed Martin in Orlando, FL and Raytheon Missiles and Defense in Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require U.S. Government personnel and U.S. Contractor representatives to visit Australia on a temporary basis in conjunction with program technical oversight and support requirements, including program and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 23-118

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM-88G Advanced Anti-Radiation Guided Missile-Extended Range (AARGM-ER) weapon system is an air-to-ground missile intended for Suppression of Enemy Air Defenses (SEAD) and Destruction of Enemy Air Defenses (DEAD) missions. The AARGM-ER provides suppression or destruction of enemy RADAR and denies the enemy the use of air defense systems, thereby improving the survivability of our tactical aircraft. The AGM-88G AARGM-ER Captive Air Training Missiles (CATM) is used by pilots when training for SEAD/DEAD missions.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Australia.
