Federal Aviation Administration

[Docket No. FAA–2024–0086]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Part 121 Operating Requirements: Domestic, Flag, and Supplemental Operations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on January 17, 2024. The collection involves regulations that prescribe the requirements governing air carrier operations. The information collected is necessary to determine air operators’ compliance with the minimum safety standards and the applicants’ eligibility for air operations certification.

DATES: Written comments should be submitted by September 30, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Sandra L. Ray by email at: Sandra.ray@faa.gov; phone: 412–546–7344.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0008.

Title: Part 121 Operating Requirements: Domestic, Flag, and Supplemental Operations.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on January 17, 2024 (89 FR 3020). Under the authority of title 49 CFR 44701, title 14 CFR prescribes the terms, conditions, and limitations as are necessary to ensure safety in air transportation. Title 14 CFR part 121 prescribes the requirements governing air carrier operations. The information collected is

used to determine air operators’ compliance with the minimum safety standards and the applicants’ eligibility for air operations certification. Each operator which seeks to obtain or is in possession of an air carrier operating certificate, must comply with the requirements of part 121 which include maintaining data which is used to determine if the air carrier is operating in accordance with minimum safety standards.

Respondents: 90 Part 121 Air Carriers.

Frequency: Information is collected on occasion.

Estimated Average Burden per

Response: Varies per response and requirement type.

Estimated Total Annual Burden: 1,472,143 hours.

Issued in Washington, DC, on August 27, 2024.

Sandra L. Ray,

Aviation Safety Inspector, AFS–260.

Agency Information Collection

Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Aircraft Registration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request Office of Management and Budget (OMB) approval to add two new forms to a previously approved information collection. The information in this collection is used by the FAA Aircraft Registration Branch (Aircraft Registry) to register aircraft or record a security interest in a registered aircraft.

DATES: Written comments should be submitted by October 29, 2024.

ADDRESSES: Please send written comments:

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0042.

Title: Aircraft Registration.

Form Numbers: Existing AC Forms 8050-1, 8050-1B, 8050-2, 8050-4, 8050-88, 8050-88A, 8050-98 and 8050-117. New AC Forms 8050-88UA and 8050-138.

Type of Review: Revision of an existing information collection.

Background: Public Law 103-272 states that all aircraft must be registered before they may be flown. It sets forth registration eligibility requirements and provides for applications for registration as well as suspension and/or revocation of registrations. The information collected is used by the FAA to determine eligibility to register an aircraft and record a security interest in a registered aircraft.

The Aircraft Registry has determined there is a need to create two new forms for this collection as follows: AC Form 8050-88UA, Affidavit of Ownership for Unmanned Aircraft (UA) and AC Form 8050-138, Declaration of International Operation (DIO).

The AC Form 8050-88UA was created to make it easier for registration applicants to supply the FAA Aircraft Registry with the minimal information needed to register a UA. Most UA owners don't have the required evidence of ownership to register. The affidavit will be used in lieu of a recordable bill of sale for any new registrations. The registrant may still submit any other proof of ownership with the affidavit or declare that evidence of ownership is not available.

The AC Form 8050-138 was created to allow registrants to request priority handling of their registration documents due to an impending international flight. The Aircraft Registry is required to process all incoming documents in the order of their receipt. Newly registered aircraft may only be flown within the continental United States by

carrying a second copy of the Aircraft Registration Application in the aircraft unless the aircraft has never been on the U.S. Registry. There are instances where applicants need to fly aircraft outside the continental United States. Many of those applicants are major Air Carriers and small businesses. When an applicant files a DIO, the applicants' registration documents will be worked on a priority basis, alleviating any undue hardship. The form will collect the pertinent information of the scheduled international flight.

Respondents: Approximately 5,000 international flights and 2,000 new UA applicants annually.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 15 minutes for each new form.

Estimated Total Annual Burden: 1,750 hours.

Issued in Oklahoma City, OK on August 27, 2024.

Program Analyst, Civil Aviation Registry, Aircraft Registration Branch, AFB-711.
