

environmental assessment available to the public for review and comment.

**DATES:** We will consider all comments that we receive on or before October 3, 2024.

**ADDRESSES:** You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to [www.regulations.gov](http://www.regulations.gov). Enter APHIS–2024–0032 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2024–0032, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at [regulations.gov](http://regulations.gov) or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

**FOR FURTHER INFORMATION CONTACT:** Dr. Jinbo Wang, Assistant Director, Pests, Pathogens, and Biocontrol Permits, Permitting and Compliance Coordination, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737–1238; (301) 851–2327; email: [Jinbo.Wang@usda.gov](mailto:Jinbo.Wang@usda.gov).

**SUPPLEMENTARY INFORMATION:** The Animal and Plant Health Inspection Service (APHIS) is proposing to issue permits for the release of the insect, *Bagous nodulosus*, for the biological control of flowering rush (*Butomus umbellatus*) in the continental United States. The action is proposed to reduce the severity of infestations of flowering rush in the continental United States.

Flowering rush is an herbaceous aquatic perennial in the plant family Butomaceae. Native to Europe and Asia, flowering rush was introduced into North America by 1900, possibly both accidentally in ballast water and packing material and intentionally via the horticulture trade. It is now widely naturalized in wetlands, lakes, ditches, and slow-moving rivers in 23 States and nine provinces surrounding the United States/Canada border and is continuing to expand outward. Flowering rush displaces native plant species, impedes water flow, alters habitat structure and nutrient cycling, damages fishing, hunting, boating, and other recreational sectors, and is difficult to control. In western North America, it provides

habitat for highly damaging invasive and nuisance species.

Permitting the release of *B. nodulosus* in the continental United States is necessary to help control invasive flowering rush. *B. nodulosus*, a semi-aquatic weevil, is a highly specific and potentially very damaging biological control agent for flowering rush. Both adult and larval feeding of *B. nodulosus* have been shown to reduce the vigor of flowering rush and this agent attacks flowering rush very early during the field season (adults are active from April onwards) and over a long period of time (larvae can be found feeding in the plants from April to September), which should reduce the ability of the plant to compensate for the attack. Host-specificity testing indicates *B. nodulosus* is unlikely to attack non-target species.

Flowering rush is very difficult to control. Conventional management strategies are often costly to implement, vary in their effectiveness, and sometimes result in extensive non-target damage. However, flowering rush is an excellent target for biological control because it is a perennial plant growing in stable habitats and because it is the only species in its family, Butomaceae, in North America. Classical biological control is a potentially useful management strategy for an invasive pest species whenever effective resident natural enemies are lacking in the new distribution range.

APHIS' review and analysis of the potential environmental impacts associated with the proposed release are documented in an environmental assessment (EA) titled "Field release of the weevil *Bagous nodulosus* (Coleoptera: Curculionidae) for classical biological control of flowering rush (Butomaceae) in the continental United States" (May 2024). Based on our findings in the EA, we are proposing to issue permits for the release of the insect, *B. nodulosus*, as a biological control agent to reduce the severity of infestations of flowering rush. We are making the EA available to the public for review and comment. We will consider all comments that we receive on or before the date listed under the heading **DATES** at the beginning of this notice.

The EA may be viewed on the [regulations.gov](http://regulations.gov) website or in our reading room (see **ADDRESSES** above for a link to [regulations.gov](http://regulations.gov) and information on the location and hours of the reading room). You may also request paper copies of the EA by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please

refer to the title of the EA when requesting copies.

The EA has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508) in effect as of the date of this notice, (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 16th day of August 2024.

**Michael Watson,**

*Administrator, Animal and Plant Health Inspection Service.*

**BILLING CODE 3410–34–P**

## DEPARTMENT OF AGRICULTURE

### Forest Service

#### Proposed Recreation Fee Site

**AGENCY:** Forest Service, Agriculture (USDA).

**ACTION:** Notice.

**SUMMARY:** The National Forests in Florida are proposing to establish a recreation fee site. Proposed recreation fees collected at the proposed recreation fee site would be used for operation, maintenance, and improvement of the site. An analysis of nearby recreation fee sites with similar amenities shows the proposed recreation fees that would be charged at the proposed recreation fee site are reasonable and typical of similar recreation fee sites in the area.

**DATES:** If approved, the proposed recreation fees would be established no earlier than six months following the publication of this notice in the **Federal Register**.

**ADDRESSES:** National Forests of Florida, Attention: Recreation Fees, 325 John Knox Road Building F, Suite 210, Tallahassee, FL 32303.

**FOR FURTHER INFORMATION CONTACT:** Derrick Washington, Recreation Program Manager, 850–523–8500 or [derrick.washington@usda.gov](mailto:derrick.washington@usda.gov).

**SUPPLEMENTARY INFORMATION:** The Federal Lands Recreation Enhancement Act (16 U.S.C. 6803(b)) requires the Forest Service to publish in the **Federal Register** a six-month advance notice of establishment of proposed recreation fee sites. In accordance with Forest Service Handbook 2309.13, chapter 30, the Forest Service will publish the proposed

recreation fee site and proposed recreation fees in local newspapers and other local publications for public comment. Most of the proposed recreation fees would be spent where they are collected to enhance the visitor experience at the proposed recreation fee site.

A proposed standard amenity recreation fee of \$5 per day per vehicle and \$40 per season or year per vehicle would be charged at Prospect Bluff Historic Site. The National Forests of Florida Day Use Pass and the America the Beautiful—the National Parks and Federal Recreational Lands Pass would be honored at this proposed standard amenity recreation fee site.

Expenditures of recreation fees collected at the proposed recreation fee site would enhance recreation opportunities, improve customer service, and address maintenance needs. Once public involvement is complete,

the proposed recreation fee site and proposed recreation fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation.

Dated: August 27, 2024.

**Jacqueline Emanuel,**  
Associate Deputy Chief, National Forest System.

**BILLING CODE 3411–15–P**

**DEPARTMENT OF COMMERCE**

**International Trade Administration**

**Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Advance Notification of Sunset Review**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**Background**

Every five years, pursuant to the Tariff Act of 1930, as amended (the Act), the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission automatically initiate and conduct reviews to determine whether revocation of a countervailing or antidumping duty order or termination of an investigation suspended under sections 704 or 734 of the Act would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy (as the case may be) and of material injury.

**Upcoming Sunset Reviews for October 2024**

Pursuant to section 751(c) of the Act, the following Sunset Reviews are scheduled for initiation in October 2024 and will appear in that month’s *Notice of Initiation of Five-Year Sunset Reviews* (Sunset Review).

	Department contact
<b>Antidumping duty proceedings</b>	
Strontium Chromate from Austria, A–433–813 (1st Review) (202) 482–1785 .....	Mary Kolberg, (202) 482–1785.
Strontium Chromate from France, A–427–830 (1st Review) .....	Mary Kolberg, (202) 482–1785.

**Countervailing Duty Proceedings**

No Sunset Review of countervailing duty proceedings is scheduled for initiation in October 2024.

**Suspended Investigations**

No Sunset Review of suspended investigations is scheduled for initiation in October 2024.

Commerce’s procedures for the conduct of Sunset Review are set forth in 19 CFR 351.218. The *Notice of Initiation of Five-Year (Sunset) Review* provides further information regarding what is required of all parties to participate in Sunset Review.

Pursuant to 19 CFR 351.103(c), Commerce will maintain and make available a service list for these proceedings. To facilitate the timely preparation of the service list(s), it is requested that those seeking recognition as interested parties to a proceeding contact Commerce in writing within 10 days of the publication of the Notice of Initiation.

Please note that if Commerce receives a Notice of Intent to Participate from a member of the domestic industry within 15 days of the date of initiation, the review will continue.

Thereafter, any interested party wishing to participate in the Sunset Review must provide substantive comments in response to the notice of initiation no later than 30 days after the

date of initiation. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).<sup>1</sup>

This notice is not required by statute but is published as a service to the international trading community.

Dated: August 16, 2024.

**Scot Fullerton,**  
Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

**BILLING CODE 3510–DS–P**

**DEPARTMENT OF COMMERCE**

**International Trade Administration**

**Initiation of Five-Year (Sunset) Reviews**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** In accordance with the Tariff Act of 1930, as amended (the Act), the U.S. Department of Commerce (Commerce) is automatically initiating the five-year reviews (Sunset Reviews) of the antidumping and countervailing

duty (AD/CVD) order(s) and suspended investigation(s) listed below. The U.S. International Trade Commission (the ITC) is publishing concurrently with this notice its notice of *Institution of Five-Year Reviews* which covers the same order(s) and suspended investigation(s).

**DATES:** Applicable September 3, 2024.

**FOR FURTHER INFORMATION CONTACT:** Commerce official identified in the *Initiation of Review* section below at AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230. For information from the ITC, contact Mary Messer, Office of Investigations, U.S. International Trade Commission at (202) 205–3193.

**SUPPLEMENTARY INFORMATION:**

**Background**

Commerce’s procedures for the conduct of Sunset Reviews are set forth in its *Procedures for Conducting Five-Year (Sunset) Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) and 70 FR 62061 (October 28, 2005). Guidance on methodological or analytical issues relevant to Commerce’s conduct of Sunset Reviews is set forth in *Antidumping Proceedings: Calculation*

<sup>1</sup> See *Administrative Protective Order, Service, and Other Procedures in Antidumping and Countervailing Duty Proceedings; Final Rule*, 88 FR 67069 (September 29, 2023).
