Abstract of Information Available

Human remains representing, at least, eight individuals have been identified. The one lot of associated funerary objects are one lot of faunal bone, charcoal, bark, snail shell, and stone. The Burnt Bluff site (20DE3) is a series of rock shelters and caves located at Big Bay de Nogue/Big Bay de Noc, Delta County, Michigan. Human remains from Burnt Bluff were recovered from two separate caves on two different occasions. Remains were removed from Spider cave in 1953 by an amateur collector and remains were removed from B-95 cave by a University led excavation in 1965. The Ancestors are one adult male, two adults, one infant six months to 1.5 years, one neonate infant, two children, and one adolescent 14-17 years.

Human remains representing, at least, one individual have been identified. No associated funerary objects are present. The human remains from the Chalk Hill Mound site (20ME50) were donated to UMMA in July of 1953 by John Mitchell, who collected them in March of 1953 from a mound at Chalk Hills on the Menominee River, just downstream from Nathan on the Michigan side of the river. No known information as to how the site was found or excavated, or any specific time period for the site. The Ancestor is an adult 30-45 years male.

Human remains representing, at least, one individual have been identified. No associated funerary objects are present. The human remains from the Menominee School site (20ME) were donated to UMMAA by the superintendent of schools for Menominee county; no name is listed on any records. There is very little information regarding the circumstances of how the human remains were found or if they were recovered from a school in Menominee County. The Ancestor is an adult 35-60 years male.

The University of Michigan has no record of, nor do its officials have any knowledge of, any treatment of items with pesticides, preservatives, or other

substances that represent a potential hazard to the collection(s) or to persons handling the collection(s).

Abstract of Information Available

A total of eight cultural items have been requested for repatriation.

The four unassociated funerary objects are shaman's objects, and the four objects of cultural patrimony are a mask, rattle, blanket, and ceremonial knife. Museum records and consultation both identified Tlingit cultural affiliation for these eight items. Available records do not include geographical locations for any of these cultural items. The Indiana University Art Museum (IUAM), now the Eskenazi Museum of Art, acquired a shaman's box from Origins Gallery in 1962. The IUAM received additional three shaman's objects as a donation from the Raymond and Laura Wielgus Collection in 2010. Prior ownership for these objects include: JJ. Klejman, George Thorton Emmons, Harry Geoffrey Beasley, the Cranmore Ethnographical Museum, Merton Simpson, and Reverend Robert Richard Arthur Doolan. The IUAM acquired a rattle and chief's blanket from Michael R. Johnson Gallery in 1975; prior ownership for the blanket includes John H. Hauberg. The IUAM acquired a mask from Raymond Wielgus in 1977; prior ownership history includes Julius Carlebach, Andre Breton, and Paul Eluard. The IUAM

acquired a ceremonial knife from Damon Brandt in 1980.

Determinations

Indiana University has determined that:

- The four unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- The four objects of cultural patrimony described in this notice have ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision), according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization.

- There is a reasonable connection between the cultural items described in this notice and the Central Council of the Tlingit & Haida Indian Tribes.
