The June 7, 2024, supplement to the petition responded to the PRB's initial assessment.

The NRC then held the public meeting on July 17, 2024. During the meeting, the petitioner's presentation discussed and expounded on information from the supplement dated June 7, 2024, and included graphics to represent their position. The transcript of that meeting is considered a supplement to the petition. Following the public meeting, the PRB met to consider what had been presented during the meeting. The PRB determined that the concerns as previously described in this notice, which were raised in the original petition and supplements, meet the criteria in MD 8.11, Sections III.C.1(a) and (b) and will be accepted into the 10 CFR 2.206 process for further review by the PRB in accordance with MD 8.11. The PRB also determined that there is no imminent safety concern that warrants immediate shutdown of Diablo Canyon. On August 22, 2024, the petition manager informed the petitioners of this outcome.

Availability of Documents

The documents identified in the following table are available to interested persons through ADAMS.

Document description	ADAMS Accession No.
Petition submitted by San Luis Obispo Mothers for Peace, Friends of the Earth, and Environmental Working Group, dated March 4, 2024.	ML24067A066
NRC SECY Order referring the petition to the 10 CFR 2.206 process, dated March 12, 2024	ML24072A529

Email from the NRC the Petitioners re Diablo Canyon Seismic Core Damage 2.206 petition-Accepted, dated August 22, 2024	ML24235A203

Dated: August 27, 2024.

For the Nuclear Regulatory Commission. Michael X. Franovich,

Acting Deputy Director, Office of Nuclear Reactor Regulation.

[FR Doc. 2024–19630 Filed 8–30–24; 8:45 am] BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC-2024-0150]

Monthly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

AGENCY: Nuclear Regulatory Commission. **ACTION:** Monthly notice.

SUMMARY: Pursuant to section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular monthly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration (NSHC), notwithstanding the pendency before the Commission of a request for a hearing from any person.

DATES: Comments must be filed by October 3, 2024. A request for a hearing or petitions for leave to intervene must be filed by November 4, 2024. This monthly notice includes all amendments issued, or proposed to be issued, from July 19, 2024, to August 15, 2024. The last monthly notice was published on August 6, 2024.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website.

• Federal rulemaking website: Go to https://www.regulations.gov and search for Docket ID NRC-2024-0150. Address questions about Docket IDs in Regulations.gov to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• *Mail comments to:* Office of Administration, Mail Stop: TWFN–7– A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555– 0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Karen Zeleznock, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415– 1118; email: *Karen.Zeleznock@nrc.gov.* **SUPPLEMENTARY INFORMATION:**

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2024– 0150, facility name, unit number(s), docket number(s), application date, and subject when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

• Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC-2024-0150.

 NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/ adams.html. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

• *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov*

or call 1–800–397–4209 or 301–415– 4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https:// www.regulations.gov*). Please include Docket ID NRC–2024–0150, facility name, unit number(s), docket number(s), application date, and subject, in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https:// www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Combined Licenses and Proposed No Significant Hazards Consideration Determination

For the facility-specific amendment requests shown in this notice, the Commission finds that the licensees' analyses provided, consistent with section 50.91 of title 10 of the Code of Federal Regulations (10 CFR) "Notice for public comment; State consultation," are sufficient to support the proposed determinations that these amendment requests involve NSHC. Under the Commission's regulations in 10 CFR 50.92, operation of the facilities in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The Commission is seeking public comments on these proposed determinations. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determinations.

Normally, the Commission will not issue the amendments until the expiration of 60 days after the date of publication of this notice. The Commission may issue any of these license amendments before expiration of the 60-day period provided that its final determination is that the amendment involves NSHC. In addition, the Commission may issue any of these amendments prior to the expiration of the 30-day comment period if circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. If the Commission takes action on any of these amendments prior to the expiration of either the comment period or the notice period, it will publish in the Federal Register a notice of issuance. If the Commission makes a final NSHC determination for any of these amendments, any hearing will take place after issuance. The Commission expects that the need to take action on any amendment before 60 days have elapsed will occur very infrequently.

A. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any person (petitioner) whose interest may be affected by any of these actions may file a request for a hearing and petition for leave to intervene (petition) with respect to that action. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii).

If a hearing is requested, and the Commission has not made a final determination on the issue of no significant hazards consideration, the Commission will make a final determination on the issue of no

significant hazards consideration, which will serve to establish when the hearing is held. If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing would take place after issuance of the amendment. If the final determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of the amendment unless the Commission finds an imminent danger to the health or safety of the public, in which case it will issue an appropriate order or rule under 10 CFR part 2.

A Ŝtate, local governmental body, Federally recognized Indian Tribe, or designated agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h) no later than 60 days from the date of publication of this notice. Alternatively, a State, local governmental body, Federally recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

For information about filing a petition and about participation by a person not a party under 10 CFR 2.315, see ADAMS Accession No. ML20340A053 (https:// adamswebsearch2.nrc.gov/webSearch2/ main.jsp?AccessionNumber=ML2034 0A053) and on the NRC's public website at https://www.nrc.gov/about-nrc/ regulatory/adjudicatory/hearing. html#participate.

B. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the "Guidance for Electronic Submissions to the NRC' (ADAMS Accession No. ML13031A056) and on the NRC's public website at https://www.nrc.gov/site-help/esubmittals.html.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at *Hearing.Docket@nrc.gov*, or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website at https:// www.nrc.gov/site-help/e-submittals/ getting-started.html. After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable Document Format. Guidance on submissions is available on the NRC's public website at *https://www.nrc.gov/* site-help/electronic-sub-ref-mat.html. A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the

NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at *https:// www.nrc.gov/site-help/esubmittals.html*, by email to *MSHD.Resource@nrc.gov*, or by a tollfree call at 1–866–672–7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at https:// adams.nrc.gov/ehd, unless excluded pursuant to an order of the presiding officer. If you do not have an NRCissued digital ID certificate as previously described, click "cancel" when the link requests certificates and you will be automatically directed to the NRC's electronic hearing docket where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

The following table provides the plant name, docket number, date of application, ADAMS accession number, and location in the application of the licensees' proposed NSHC determinations. For further details with respect to these license amendment applications, see the applications for amendment, which are available for public inspection in ADAMS. For additional direction on accessing information related to this document, see the "Obtaining Information and Submitting Comments" section of this document.

LICENSE AMENDMENT REQUESTS

Docket Nos	50-413, 50-414.
Application date	June 18, 2024.
ADAMS Accession No	ML24170A696.
Location in Application of NSHC	Pages 7-8 of the Enclosure.
Brief Description of Amendments	The proposed amendments would revise Catawba's Units 1 and 2 Technical Specification (TS) 3.4.3, "RCS Pressure and Temperature (P/T) Limits," to reflect an update to the P/T limit curves in Figures 3.4.3–1 (Unit 2 only) and 3.4.3–2 (Unit 2 only). The proposed amendments will also reflect that the revised Catawba Unit 2 P/T limit curves in TS 3.4.3 are applicable until 54 effective full power years.
Proposed Determination	NSHC.
Name of Attorney for Licensee, Mailing Address	Tracey Mitchell LeRoy, Deputy General Counsel, Duke Energy Corporation, 525 S Tryon Street, Charlotte, NC 28210.
NRC Project Manager, Telephone Number	Jack Minzer Bryant, 301–415–0610.

Duke Energy Carolinas, LLC; Catawba Nuclear Station, Units 1 and 2; York County, SC

Entergy Operations, Inc.; Waterford Steam Electric Station, Unit 3; St. Charles Parish, LA

Docket No	50–382.
Application date	May 8, 2024.
ADAMS Accession No	ML24129A039.
Location in Application of NSHC	Pages 13–14 of the Enclosure.

Brief Description of Amendment	The proposed amendment would change four surveillance frequencies associated with specific
	Waterford Steam Electric Station, Unit 3 (Waterford 3), technical specifications surveillances,
	to instead be performed in accordance with the Surveillance Frequency Control Program.
	These changes were originally intended to have been addressed in the Waterford 3 license
	amendment request for TSTF-425, "Relocate Surveillance Frequencies to Licensee Con-
	trol—Risk-Informed Technical Specification Task Force (RITSTF) Initiative 5b" (ADAMS
	Package Accession No. ML15170A121), dated June 17, 2015.
Proposed Determination	NSHC.
Name of Attorney for Licensee, Mailing Address	Susan Raimo, Associate General Counsel—Nuclear, 101 Constitution Avenue NW, Wash- ington, DC 20001.
NRC Project Manager, Telephone Number	Jason Drake, 301–415–8378.

LICENSE AMENDMENT REQUESTS—Continued

NextEra Energy Point Beach, LLC; Point Beach Nuclear Plant, Units 1 and 2; Manitowoc County, WI

Docket Nos	50–266, 50–301.
Application date	July 24, 2024.
ADAMS Accession No	ML24206A109.
Location in Application of NSHC	Pages 2–3 of Enclosure.
Brief Description of Amendments	The proposed amendments would request adoption of Technical Specifications Task Force (TSTF) Traveler, TSTF–577, Revision 1, "Revised Frequencies for Steam Generator Tube Inspections."
Proposed Determination	NSHĊ.
Name of Attorney for Licensee, Mailing Address	Steven Hamrick, Senior Attorney, 801 Pennsylvania Ave. NW, Suite 220, Washington, DC 20004.
NRC Project Manager, Telephone Number	Scott Wall, 301–415–2855.

Nine Mile Point Nuclear Station, LLC and Constellation Energy Generation, LLC; Nine Mile Point Nuclear Station, Unit 1; Oswego County, NY

Docket No Application date ADAMS Accession No Location in Application of NSHC Brief Description of Amendment	50–220. June 13, 2024. ML24165A223. Pages 4–5 of Attachment 1. The proposed amendment would modify the Nine Mile Point Nuclear Station, Unit 1 (NMP1) technical specifications (TSs) by adopting Technical Specification Task Force (TSTF)–230, Revision 1, "Add New Condition B to LCO [Limiting Condition for Operation] 3.6.2.3, RHR Suppression Pool Cooling." The TSTF modifies improved TS (ITS) 3.6.2.3, "Residual Heat Removal (RHR) Suppression Pool Cooling," to allow two RHR suppression pool cooling subsystems to be inoperable for eight hours. NMP1 does not have ITSs; therefore, the ap- plicable LCO for NMP1 is TS LCO 3.3.7, "Containment Spray System." Additionally, a new specification is proposed to be added that will direct operators to place the unit in "Shut- down Condition—Hot" within 12 hours and "Shutdown Condition—Cold" in 36 hours if appli- cable specifications are not met.
Proposed Determination	NSHC.
Name of Attorney for Licensee, Mailing Address	Jason Zorn, Associate General Counsel, Constellation Energy Generation, LLC, 101 Constitu- tion Ave. NW, Suite 400 East, Washington, DC 20001.

III. Notice of Issuance of Amendments to Facility Operating Licenses and Combined Licenses

During the period since publication of the last monthly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating

license or combined license, as applicable, proposed NSHC determination, and opportunity for a hearing in connection with these actions, were published in the **Federal Register** as indicated in the safety evaluation for each amendment.

Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.22(b) and has made a determination based on that assessment, it is so indicated in the safety evaluation for the amendment.

For further details with respect to each action, see the amendment and associated documents such as the Commission's letter and safety evaluation, which may be obtained using the ADAMS accession numbers indicated in the following table. The safety evaluation will provide the ADAMS accession numbers for the application for amendment and the Federal Register citation for any environmental assessment. All of these items can be accessed as described in the "Obtaining Information and Submitting Comments" section of this document.

LICENSE AMENDMENT ISSUANCES

Constellation Energy Generatio	n, LLC; Limerick Generating Station, Units 1 and 2; Montgomery County, PA
Docket Nos	50–352, 50–353.
Amendment Date	July 29, 2024.
ADAMS Accession No	ML24204A071.
Amendment Nos	263 (Unit1), 225 (Unit 2).
Brief Description of Amendments	The amendments revised the technical specifications by replacing automatic main steam isola tion valve isolation requirements with a monitoring requirement and a manual shutdown if the turbine enclosure main steam line tunnel temperature exceeds a certain value and main steam line pressure boundary leakage is detected.
Public Comments Received as to Proposed NSHC (Yes/No).	No.
Constellation Energy Generation,	LLC; Quad Cities Nuclear Power Station, Units 1 and 2; Rock Island County, IL
Docket Nos	50-254, 50-265.
Amendment Date	August 8, 2024.
ADAMS Accession No	ML24183A108.
Amendment Nos	302 (Unit 1), 298 (Unit 2).
Brief Description of Amendments	The amendments adopted Technical Specification Task Force (TSTF) Travelers 505 (TSTF– 505), Revision 2, "Provide Risk Informed Extended Completion Times—RITSTF Initiative 4b" and TSTF–591, Revision 0, "Revise Risk Informed Completion Time (RICT) Program."

Docket No Amendment Date ADAMS Accession No Amendment No Brief Description of Amendment Brief Description of Amendment	50–400. August 14, 2024. ML24059A425. 202. The amendment modified the Technical Specification (TS) Surveillance Requirement (SR) 4.6.1.1 to eliminate the requirement to perform periodic position verification for containment penetrations that are maintained locked, sealed, or otherwise secured closed, and adopted Technical Specifications Task Force (TSTF) Improved Standard TS (ISTS) Change Traveler No. 45 (TSTF–45–A), Revision 2, "Exempt Verification of Containment Isolation Valves that are Not Locked, Sealed, or Other-wise Secured." The amendment also revised TS 3.3.3.5, "Remote Shutdown System," to increase the completion time for inoperable Remote Shut- down System components to a time that is more consistent with their safety significance and removed the requirement to submit a Special Report. It also relocated the content in Table 3.3–9, "Remote Shutdown System," and Table 4.3–6, "Remote Shutdown Monitoring Instru- mentation Surveillance Requirements," in accordance with TSTF–266–A, Revision 3, "Elimi- nate the Remote Shutdown System Table of Instrumentation and Controls." Additionally, the amendment updated SR 4.3.1.1, Table 4.3–1, "Reactor Trip System Instrumentation Surveil- lance Requirements," to address the application of the Surveillance Frequency Control Pro- gram to establish the frequency for performance of the Analog Channel Operational Test of select Reactor Trip System instrumentation. Changes were made to the administrative con- trols section of the TS to reflect current organizational titles as well as remove reporting re- quirements that were redundant to existing regulations. The changes reflect requirements consistent with those in NUREG–1431, Revision 5, "Standard Technical Specifications-Wes- tinghouse Plants."

IV. Notice of Issuance of Amendment to Facility Operating Licenses and Combined Licenses and Final Determination of No Significant Hazards Consideration and Opportunity for a Hearing (Exigent Circumstances or Emergency Situation)

Since publication of the last monthly notice, the Commission has issued the following amendment. The Commission has determined for this amendment that the application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

Because of exigent circumstances or emergency situation associated with the date the amendment was needed, there was not time for the Commission to publish, for public comment before issuance, its usual notice of consideration of issuance of amendment, proposed NSHC determination, and opportunity for a hearing.

In circumstances where failure to act in a timely way would have resulted, for example, in derating or shutdown of a nuclear power plant or in prevention of either resumption of operation or of increase in power output up to the plant's licensed power level (an emergency situation), the Commission may not have had an opportunity to provide for public comment on its NSHC determination. In such case, the license amendment has been issued without opportunity for comment prior to issuance. Nonetheless, the State has been consulted by telephone whenever possible.

Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has determined that NSHC is involved. The Commission has applied the standards of 10 CFR 50.92 and has made a final determination that the amendments involve NSHC. The basis for this determination is contained in the NRC staff safety evaluation related to each action. Accordingly, the amendment has been issued and made effective as indicated.

For those amendments that involve an emergency situation, the Commission is now providing an opportunity to comment on the final NSHC determination for each action; comments should be submitted in accordance with Section I of this notice within 30 days of the date of this notice. Any comments received within 30 days of the date of publication this notice will be considered.

For those amendments that have not been previously noticed in the **Federal Register**, within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the guidance concerning the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2 as discussed in section II.A of this document.

Unless otherwise indicated, the Commission has determined that the amendment satisfies the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental

...

assessment need be prepared for this amendment. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.12(b) and has made a determination based on that assessment, it is so indicated in the safety evaluation for the amendment.

For further details with respect to these actions, see the amendment and associated documents such as the Commission's letter and safety evaluation, which may be obtained using the ADAMS accession numbers indicated in the following table. The safety evaluation will provide the ADAMS accession number(s) for the application for amendment and the **Federal Register** citation for any environmental assessment. All of these items can be accessed as described in the "Obtaining Information and Submitting Comments" section of this document.

LICENSE AMENDMENT ISSUANCE—EMERGENCY CIRCUMSTANCES

Docket No	50–424.
Amendment Date	July 23, 2024.
ADAMS Accession No	ML24204A072.
Amendment No	225.
Brief Description of Amendment	The amendment revised Technical Specification (TS) 3.7.9, "Ultimate Heat Sink," to allow a 92-day Completion Time for Required Action D.2 for an inoperable Nuclear Service Cooling Water (NSCW) basin transfer pump. The TS changes would be a one-time change and in effect only until September 9, 2024, during Vogtle Unit 1 Cycle 25 (1R25). The change also includes a Required Action D.2 Note which prevents Application of limiting conditions for or eration 3.0.4.a and b for entry into MODE 4 following 1R25 unless repairs to the 1A NSCW transfer pump have been completed. The license amendment is issued under emergency circumstances as described in the provisions of 10 CFR 50.91(a)(5) due to the time critical nature of the amendment.
Local Media Notice (Yes/No)	No.
Public Comments Requested as to Proposed NSHC (Yes/No).	No.

V. Previously Published Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Combined Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The following notice was previously published as separate individual notice.

It was published as an individual notice either because time did not allow the Commission to wait for this monthly notice or because the action involved exigent circumstances. It is repeated here because the monthly notice lists all amendments issued or proposed to be issued involving NSHC. For details, including the applicable notice period, see the individual notice in the **Federal Register** on the day and page cited.

LICENSE AMENDMENT REQUEST(S)-REPEAT OF INDIVIDUAL FEDERAL REGISTER NOTICE

Southern Nuclear Operating Company, Inc.; Joseph M. Farley Nuclear Plant, Units 1 and 2; Houston County, AL	
Docket Nos Application Date ADAMS Accession No Brief Description of Amendments	 50–364, 50–348. July 18, 2024. ML24201A108. The NRC is considering issuance of an amendment to Facility Operating License No. NPF–2 and NPF–8, issued to Southern Nuclear Operating Company, Inc. (SNC, the licensee), for operation of the Joseph M. Farley Nuclear Plant, (Farley) Units 1 and 2. The requested amendment would revise the operating license, Appendix A, Technical Specification (TS) 3.6.5, "Containment Air Temperature," actions upon exceeding the containment average air temperature limit of 120 degrees Fahrenheit (°F) and remove an expired Note provision. Specifically, the proposed amendment would revise TS 3.6.5 Required Actions and Completion Time A.1, add Required Actions and Completion Times A.2 and A.3, as well as remove an expired Note in TS 3.6.5 Limiting Conditions for Operation.
Date and Citation of Federal Register Indi- vidual Notice.	July 29, 2024; 89 FR 60930.
Expiration Dates for Public Comments & Hear- ing Requests.	August 28, 2024 (Public Comments) and September 27, 2024 (Hearing Requests).

Dated: August 27, 2024.

For the Nuclear Regulatory Commission.

Aida Rivera-Varona,

Deputy Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

[FR Doc. 2024–19687 Filed 8–30–24; 8:45 am] BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC-2024-0144]

Application for Amendment to Facility Operating Licenses Involving Proposed No Significant Hazards Consideration Determination and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment request; notice of opportunity to comment, request a hearing, and petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) received and is considering approval of one amendment request. The amendment request is for Hope Creek Generating Station, Unit 1. For the amendment request, the NRC proposes to determine that it involves no significant hazards consideration (NSHC). Because the amendment request contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation by persons who file a hearing request or petition for leave to intervene.

DATES: Comments must be received by October 3, 2024. A request for a hearing or petitions for leave to intervene must be filed by November 4, 2024. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI is necessary to respond to this notice must request document access by September 13, 2024.

ADDRESSES: You may submit comments by any of the following methods however, the NRC encourages electronic comment submission through the Federal rulemaking website.

• Federal rulemaking website: Go to https://www.regulations.gov and search for Docket ID NRC–2024–0144. Address questions about Docket IDs in Regulations.gov to Stacy Schumann; telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• *Mail comments to:* Office of Administration, Mail Stop: TWFN–7– A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555– 0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Kay Goldstein, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555– 0001; telephone: 301–415–1506; email: *Kay.Goldstein@nrc.gov.*

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2024– 0144, facility name, unit number(s), docket number(s), application date, and subject when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

• Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2024–0144.

 NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/ adams.html. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The Hope Creek Generating Station, Unit 1 notice amendment request is available in ADAMS under Accession No. ML24180A127.

• *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https:// www.regulations.gov*). Please include Docket ID NRC–2024–0144, facility name, unit number(s), docket number(s), application date, and subject, in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *https:// www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Pursuant to section 189a.(1)-(2) of the Atomic Energy Act of 1954, as amended (the Act), the NRC is publishing this notice. The Act requires the Commission to publish notice of any amendments issued or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves NSHC. notwithstanding the pendency before the Commission of a request for a hearing from any person.

This notice includes a notice of amendment containing SUNSI.

III. Notice of Consideration of Issuance of an Amendment to Facility Operating License(s), Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment request involves NSHC. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or
