4. Assessment Schedules and Rates. Two schedules that are subject to updates—one for parents of dependent students and one for independent students with dependents other than a spouse—are used to further limit how much of the family financial resources are considered to go toward educational

expenses. For dependent students, the SAI is derived from an assessment of the parents' adjusted available income (AAI). For independent students with dependents other than a spouse, the SAI is derived from an assessment of the family's AAI. The AAI represents a measure of a family's financial strength,

which considers both income and assets.

The contribution of parents of dependent students, and independent students with dependents other than a spouse, is computed according to the following schedule:

ASSESSMENT OF AVAILABLE INCOME

If AAI is	Then the contribution is
Less than – \$8,300	– \$1,826.
– \$8,300 to \$21,300	22% of AAI.
\$21,301 to \$26,700	\$4,686 + 25% of AAI over \$21,300.
\$26,701 to \$32,000	\$6,036 + 29% of AAI over \$26,700.
\$32,001 to \$37,500	\$7,573 + 34% of AAI over \$32,000.
\$37,501 to \$42,900	\$9,443 + 40% of AAI over \$37,500.
\$42,901 or more	\$11,603 + 47% of AAI over \$42,900.

5. Employment Expense Allowance. This allowance for employment-related expenses recognizes additional expenses incurred by working individuals. For parents of dependent students, the employment expense allowance is the lesser of \$4,890 or 35% of the total earned income of the student's parent and parent's spouse, if applicable. The employment expense allowance for independent students with dependents other than a spouse is also the lesser of \$4,890 or 35% of the combined earned income for the student and student spouse, if applicable. The allowance is the same for independent students without dependents other than a spouse if they are married, but if they are not married, the allowance is zero.
