

CFR part 1549 support the 9/11 Act mandate by providing an alternative means of compliance with the 100 percent screening requirement. To comply with the statutory mandate, the CCSP allows shippers, indirect air carriers, and other entities to voluntarily participate in a program through which TSA certifies entities to screen air cargo off-airport before it is tendered to air carriers for transport on passenger aircraft. CCSFs may screen cargo off-airport and must implement measures to ensure a secure chain of custody from the point of screening to the point at which the cargo is tendered to the aircraft operator. In addition, TSA developed a program to certify 3PK9-C Teams to screen air cargo.³ TSA incorporated this capability under the framework of the CCSP, providing an opportunity for canine team providers to choose to be regulated as CCSFs under 49 CFR part 1549 and approved to use Certified 3PK9-C Teams to screen cargo for TSA regulated entities.

TSA's three primary programs issued under 49 CFR part 1549 provides standards for compliance for those entities subject to the program's requirements: (1) the Certified Cargo Screening Security Program, applicable to facilities-based CCSFs; (2) the Certified Cargo Security Program-K9, applicable to canine team providers; and (3) the 3PK9-C Certifier Order, applicable to third-party certifiers.

The following are required to maintain availability of the CCSP: CCSF applications, 3PK9-C certifier applications, security threat assessment applications, criminal history records check, recordkeeping requirements, security program information, 3PK9-C Certifier Order information, reports of significant security concerns, and security coordinator information.

TSA is revising this collection to update the following TSA Forms: 419A, 419B, 419C, 419D and 419E, updating title and removing duplicative data elements. TSA is also making minor changes by updating instructions and removing information no longer required by the applicable security program.

Total Estimated Number of Respondent: 8,052.

Total Estimated Annual Burden Hours: 17,662 hours annually.⁴

³ See sec. 1941 of the FAA Reauthorization Act of 2019, Division K, Title I (Pub. L. 115-254; 132 Stat. 3186; Oct. 5, 2018).

⁴ Since the publication of the 60-day notice, TSA adjusted the annual respondents from 933 to 8,052 and the annual burden hours from 18,043 to 17,662.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on March 28, 2024 at 89 FR 21537.

A. Overview of Information Collection

Title of Information Collection: Relocation Options Study.

OMB Approval Number: 2528-0297.

Type of Request: New collection.

Form Number: N/A.

Description of the need for the information and proposed use: The Office of Policy Development and Research (PD&R), at the U.S. Department of Housing and Urban Development (HUD), is proposing the collection of information for the Relocation Options study.

Increasing threats of natural hazards due to climate change may necessitate the movement of households or entire communities to mitigate risk to people and properties. This research will conduct analysis of the efficacy of buyouts, relocation, and resettlement in mitigating hazard risk exposure; assess the potential adverse outcomes, inequities, and opportunity of such programs; and determine the needed capacity and coordination of Federal, state, and local levels to enable successful buyout, relocation, and resettlement initiatives. The goal of this research is to improve equity in how disaster recovery and mitigation funds are used for households that participate in buyout programs in communities that have received Community Development Block Grant-Disaster Recovery (CDBG-DR) grants or Community Development Block Grant Mitigation (CDBG-MIT) grants. Results from this research shall be interpretable to inform a framework for a pilot program and evaluation structure to inform the ongoing federal approach to hazard-related relocation. Currently, a "buyout" for CDBG-DR and CDBG-MIT grants means the acquisition of a property located in a floodway, floodplain, or other grantee-designated high-risk area, that is intended to reduce risk from future hazards.

This **Federal Register** Notice provides an opportunity to comment on the information collection for this study titled Relocation Options. The

information collection is designed to support the Relocation Options study to better understand outcomes of households and communities that have participated in homeowner buyout programs using CDBG-DR or CDBG-

MIT funds. This work will include a qualitative component and generate principles for equitable and responsible buyouts, relocation, and resettlement strategies. The study includes interviews of CDBG-DR grantees and

program administrators, other relevant community stakeholders, and homeowners that have gone through a CDBG-DR or CDBG-MIT funded buyout process.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

(5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

HUD encourages interested parties to submit comments in response to these questions.

C. Authority
