ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Double Run Solar, LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed threatened Eastern indigo snake incidental to the construction and operation of a solar facility in Turner County, Georgia. We request public

comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations, the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft environmental action statement and low-effect screening form, both of which are also available for public review. Proposed Project

The applicant requests a 10-year ITP to take three Eastern indigo snakes and two nests via the conversion of approximately 768.8 acres (ac) of occupied nesting, foraging, and sheltering habitat incidental to the construction and operation of a solar facility on a 2,037-ac parcel. The parcel is mostly on the north side of Georgia State Route 90 and east side of Georgia State Route 159, approximately 2 miles northwest of the city of Rebecca, Georgia. The applicant proposes to avoid and minimize take of the species to the greatest extent possible by
