SUPPLEMENTARY INFORMATION:

Title: FERC–523, Application for Authorization for the Issuance of Securities or the Assumption of Liabilities.

OMB Control No.: 1902–0043.

Type of Request: Three-year approval of the FERC–523 information collection requirements with no changes to the current reporting requirements.

Abstract: The information collected by FERC–523 is required to implement the statutory provisions of section 204 of the Federal Power Act (FPA) (16 U.S.C. 824c). Under section 204 of the FPA, no public utility or licensee shall issue any security, or assume any obligation or liability as guarantor, endorser, surety, or otherwise in respect of any security of another person, until the public utility applies for and receives Commission approval by order authorizing the issuance or assumption of the liability. The Commission issues an order if it finds that such issuance or assumption (a) is for lawful object, within the corporate purposes of the applicant and compatible with the public interest, which is necessary or appropriate for or consistent with the proper performance by the applicant as a public utility, and which will not impair its ability to perform that service, and (b) is reasonably necessary or appropriate for such purposes.

The Commission uses the information contained in filings to determine its acceptance and/or rejection of applications for authorization to either issue securities or to assume an obligation or liability by the public utilities and licensees who submit these applications.

The specific application requirements and filing format are found at 18 CFR part 34, and 18 CFR 131.43 and 131.50. This information is filed electronically.

Type of Respondents: Public utilities subject to the Federal Power Act.

Estimate of Annual burden¹ and cost:² The Commission estimates the reduction in the annual public reporting burden for the FERC–523, as follows:

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.

² Commission staff estimates that the industry's skill set and cost (for wages and benefits) for FERC–523 are approximately the same as the Commission's average cost. The FERC 2024 average salary plus benefits for one FERC full-time equivalent (FTE) is \$207,786/year (or \$100.00/hour).

FERC-523, APPLICATION FOR AUTHORIZATION FOR ISSUANCE OF SECURITIES OR THE ASSUMPTION OF LIABILITIES

Number of respondents (1)	Annual number of responses per respondent (2)	Total number of responses (1) * (2) = (3)	Average burden hours & cost (\$) per response (4)	Total annual burden hours & total annual cost (\$) (3) * (4) = (5)	Cost per respondent (\$) (5) ÷ (1)
72	1	72	70; \$7,000	5,040; \$504,000	\$7,000

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
