

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1260; FR ID 243134]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority**AGENCY:** Federal Communications Commission.**ACTION:** Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before November 12, 2024. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1260.

Title: Broadcast Incubator Program.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; Tribal Governments.

Number of Respondents and Responses: 20 respondents; 123 responses.

Estimated Time per Response: 4 to 16 hours.

Frequency of Response: On occasion reporting requirement; annual reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority that covers this information collection is 47 U.S.C. 151, 152(a), 154(i), 257, 303, 307–310, and 403.

Total Annual Burden: 1,179 hours.

Total Annual Cost: \$326,700.

Needs and Uses: On August 3, 2018, the Commission released a Report and Order (Order), Rules and Policies to Promote New Entry and Ownership Diversity in the Broadcasting Services, FCC 18–114, in MB Docket No. 17–289, establishing the requirements that will govern the incubator program that the Commission previously decided to adopt to support the entry of new and diverse voices into the radio broadcast industry. The incubator program is designed for small businesses, struggling station owners, and new entrants that do not have any other means to access the financial assistance and operational support necessary for success in the broadcast industry. The goal is the pairing of these small aspiring, or struggling, broadcast station owners with established broadcasters. These incubation relationships will provide new entrants and struggling small broadcasters access to the financing, mentoring, and industry connections that are necessary for success in the industry, but to date have been unavailable to many. In return for successfully incubating a small aspiring, or struggling, broadcast station owner as part of the Commission's incubator program, an incumbent broadcaster will be eligible to receive a waiver (a reward waiver) of the Commission's Local Radio Ownership Rule following the conclusion of a successful qualifying incubation relationship. The standard term for an incubation relationship is three years.

Commission staff will use the applications, certified statements, and contracts submitted by potential incubating and incubated entities, along with any responses to Commission requests for additional information to determine qualifications for participation in the incubator program.

Commission staff will use the periodic reports to determine whether

ongoing incubation relationships are proceeding in a manner consistent with the parties' initial filings and are likely to result in a successful incubation relationship. At the end of a successful incubation relationship, either the incubated entity will own and operate a full-service AM or FM station independently or the incubated station will be on a firmer footing if the station was struggling at the start of the relationship.

In the event the parties seek to extend the duration of their incubation relationship beyond the standard three-year term, the filing of a request for such an extension will enable Commission staff to gauge the types of problems incubating parties are experiencing. Information provided by the parties to the Commission no later than six months before the contract termination date will allow Commission staff to evaluate which option for station ownership the incubating parties plan to pursue at the conclusion of the relationship—*i.e.*, whether the incubated entity plans to keep the incubated station or purchase a new station. Additionally, Commission staff will review documentation submitted to seek a reward waiver to assess whether the market where the reward waiver is sought is comparable to the market where the incubated station was located.

Federal Communications Commission.

Marlene Dortch,*Secretary, Office of the Secretary.*

BILLING CODE 6712–01–P**FEDERAL COMMUNICATIONS COMMISSION**

[FR ID 243133]

Federal Advisory Committee Act; Communications Security, Reliability, and Interoperability Council**AGENCY:** Federal Communications Commission.**ACTION:** Notice of public meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, this notice advises interested persons that the Federal Communications Commission's (FCC) Communications Security, Reliability, and Interoperability Council (CSRIC) IX will hold its second meeting on September 27, 2024 at 1:00 p.m. EDT.

DATES: September 27, 2024.

ADDRESSES: The meeting will be held at 45 L Street NE, Washington, DC, and via conference call. The meeting is open to

the public and is also available via WebEx at <https://www.fcc.gov/live> and on the FCC's YouTube channel.

FOR FURTHER INFORMATION CONTACT:

Suzon Cameron, Designated Federal Officer (DFO), CSRIC IX, FCC, (202) 418-1916 or email: CSRIC@fcc.gov, Kurian Jacob, Deputy DFO, CSRIC IX, FCC, (202) 418-2040 or email: CSRIC@fcc.gov, or Logan Bennett, Deputy DFO, CSRIC IX, FCC, (202) 418-7790 or email: CSRIC@fcc.gov.

SUPPLEMENTARY INFORMATION: The meeting will be held on September 27, 2024, at 1:00 p.m. ET, in the Commission Meeting Room of the Federal Communications Commission, 45 L Street NE, Washington, DC. While the CSRIC IX meeting is open to the public, the FCC headquarters building is not open access, and all guests must check in with and be screened by FCC security at the main entrance on L Street. Attendees at the meeting will not be required to have an appointment but must otherwise comply with protocols outlined at: <https://www.fcc.gov/visit>.

The CSRIC is a Federal Advisory Committee that will provide recommendations to the Commission to improve the security, reliability, and interoperability of communications systems. On March 26, 2024, the Commission, pursuant to the Federal Advisory Committee Act, renewed the charter for CSRIC IX for a period of two years through March 25, 2026. The meeting on September 27, 2024, will be the second meeting of CSRIC IX under the current charter. The FCC will provide audio and/or video coverage of the meeting over the internet from the FCC's web page at <https://www.fcc.gov/live> and on the FCC's YouTube channel. The public may submit written comments before the meeting to Suzon Cameron, DFO, CSRIC IX, via email to CSRIC@fcc.gov.

Open captioning will be provided for this event. Other reasonable accommodations for people with disabilities are available upon request. Requests for such accommodations should be submitted via email to fcc504@fcc.gov or by calling the Consumer & Governmental Affairs Bureau at (202) 418-0530 (voice). Such requests should include a detailed description of the accommodation needed. In addition, please include a way the Commission can contact you if it needs more information. Please allow at least five days' advance notice; last-minute requests will be accepted but may be impossible to fill.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before November 12, 2024. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0261.

Title: Section 90.215, Transmitter Measurements.

Form No.: Not applicable.

Frequency of Response: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions and state, local or tribal Government.

Number of Respondents: 150,081 respondents; 234,439 responses.

Estimated Time per Response: .033 hours.

Frequency of Response:

Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 303(f) of the Communications Act of 1934, as amended.

Total Annual Burden: 7,727 hours.

Total Annual Cost: No cost.

Needs and Uses: The information collection requirements contained in Section 90.215 require station licensees to measure the carrier frequency, output power, and modulation of each transmitter authorized to operate with power in excel of two watts when the transmitter is initially installed and when any changes are made which would likely affect the modulation characteristics. Such measurements, which help ensure proper operation of transmitters, are to be made by a qualified engineering measurement service, and are required to be retained in the station records, along with the name and address of the engineering measurement service, and the name of the person making the measurements. The information is normally used by the licensee to ensure that equipment is operating within prescribed tolerances. Prior technical operation of transmitters helps limit interference to other users and provides the licensee with the maximum possible utilization of equipment.

OMB Control No.: 3060-0270.

Title: Section 90.443, Content of Station Records.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 166,658 respondents; 166,658 responses.

Estimated Time per Response: .25 hours.
