ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R09–OAR–2023–0494; FRL–11442–02–R9]

Air Plan Approval; California; South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action on a revision to the South Coast Air Quality Management District (SCAQMD or “the District”) portion of the California State Implementation Plan (SIP). This revision concerns the regulation of emissions of oxides of nitrogen (NO_x) and particulate matter (PM) associated with warehouses as indirect sources that attract or may attract mobile source emissions. The EPA is approving SCAQMD Rule 2305, “Warehouse Indirect Source Rule—Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program,” to regulate these emission sources under the Clean Air Act (CAA or “the Act”) as a SIP strengthening.

DATES: This rule is effective October 11, 2024.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R09–OAR–2023–0494. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information

whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information. If you need assistance in a language other than English or if you are a person with a disability who needs a reasonable accommodation at no cost to you, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: La Kenya Evans-Hopper, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105; phone: (415) 972–3245; email: evanshopper.lakenya@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us,” and “our” refer to the EPA.

I. Proposed Action

On October 12, 2023 (88 FR 70616) (“proposed rule”), the EPA proposed to approve SCAQMD Rule 2305 as a revision to the SCAQMD portion of the California SIP. Table 1 lists the SCAQMD rule addressed by the proposed rule with the dates that it was adopted by the SCAQMD and submitted by the California Air Resources Board (CARB).

TABLE 1—SUBMITTED RULE

| Local agency | Rule No. | Rule title | Adopted | Submitted |
|--------------|----------|---|------------|------------|
| SCAQMD | 2305 | Warehouse Indirect Source Rule—Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program. | 05/07/2021 | 08/13/2021 |

As described in the proposed rule, the purpose of SCAQMD Rule 2305 is to reduce local and regional emissions of NO_x and PM, and to facilitate local and regional emission reductions associated with warehouses and the mobile sources attracted to warehouses in the SCAQMD, to meet State and Federal air quality standards for ozone and fine PM (PM_{2.5}).¹ The rule applies within the jurisdiction of the SCAQMD, which includes all of Orange County, the non-desert portions of Los Angeles and San Bernardino counties, and all of

Riverside County (except for the Palo Verde Valley in far eastern Riverside County).

Through the adoption of the 2016 South Coast Air Quality Management Plan (AQMP), the SCAQMD adopted certain “facility-based mobile source measures,” including a measure under which the SCAQMD committed to assess and identify potential actions to further reduce emissions from emission sources associated with warehouse distribution centers.² In 2019, the EPA

approved the ozone portions of the 2016 South Coast AQMP, including the commitment to develop facility-based mobile source measures, including the measure focused on warehouse distribution centers.³ The 2016 AQMP does not include an emission reduction estimate for the facility-based mobile source measure related to warehouses. In 2021, after assessing potential actions to further reduce emissions associated

² 2016 South Coast AQMP designates the warehouse measure as MOB–03 (“Emission Reductions at Warehouse Distribution Centers”).
