ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for TUV Rheinland of North America, Inc., as a Nationally Recognized Testing Laboratory (NRTL).

DATES: The expansion of the scope of recognition becomes effective on September 12, 2024.

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of TUV Rheinland of North America, Inc. (TUVRNA), as a NRTL. TUVRNA’s expansion covers the addition of two test standards to the NRTL scope of recognition.

OSHA’s recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL’s scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL’s scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by NRTLs or applicant organizations for initial recognition, as well as for expansion or renewal of recognition, following requirements in appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in

processing an application. In the first notice, OSHA announces the application and provides the preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including TUVRNA, which details that NRTL’s scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

TUVRNA submitted an application, dated January 6, 2022 (OSHA–2007–0042–0077), to expand recognition as a NRTL to include two additional test standards. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

OSHA published the preliminary notice announcing TUVRNA’s expansion application in the **Federal Register** on July 29, 2024 (89 FR 60927). The agency requested comments by August 13, 2024, but it received no comments in response to this notice. OSHA is now proceeding with this final notice to grant expansion of TUVRNA’s scope of recognition.

To review copies of all public documents pertaining to TUVRNA’s application, go to www.regulations.gov or contact the OSHA Docket Office. Docket No. OSHA–2007–0042 contains all materials in the record concerning TUVRNA’s recognition.

II. Final Decision and Order

OSHA staff examined TUVRNA’s expansion application, their capability to meet the requirements of the test standards, and other pertinent information. Based on its review of this evidence, OSHA finds that TUVRNA meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitations and conditions listed below. OSHA, therefore, is proceeding with this final notice to grant TUVRNA’s scope of recognition. OSHA limits the expansion of TUVRNA’s recognition to testing and certification of products for demonstration of conformance to the test standards shown below in table 1.

TABLE 1—APPROPRIATE TEST STANDARDS FOR INCLUSION IN TUVRNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 2743	Portable Power Packs.
UL 60320-1	Appliance Couplers for Household and Similar General Purposes—Part 1: General Requirements.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

A. Conditions

Recognition is contingent on continued compliance with 29 CFR 1910.7, including but not limited to, abiding by the following conditions of recognition:

1. TUVRNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. TUVRNA must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. TUVRNA must continue to meet the requirements for recognition, including all previously published conditions on TUVRNA's scope of recognition, in all areas for which it has recognition.

OSHA hereby expands the scope of recognition of TUVRNA, subject to the limitations and conditions specified above.

III. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8-2020 (85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on September 5, 2024.

Deputy Assistant Secretary of Labor for Occupational Safety and Health.
