

intercept, identify, locate, record, and/or analyze sources of radiated electromagnetic energy to support classification of unknown surface and airborne units.

6. The AN/AYK-27 Integrated Navigation Control and Display System serves as the network manager and the human machine interface for the E-2D navigation system.

7. The LN-251 Embedded Global Positioning Systems/Inertial Navigation Systems (EGIs) with embedded airborne Selective Availability Anti-Spoofing Module (SAASM) or M-Code Receiver (ASR) system provides position, navigation and timing information to the E-2D via the Global Positioning Satellite system and an inertial measuring unit.

8. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

9. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might

reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

10. A Special Security Agreement will be in place to provide additional security requirements for implementation by the Government of Japan to protect the advanced capabilities this aircraft provides. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

11. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Japan.

(viii) *Date Report Delivered to Congress:* March 29, 2023

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Bahrain—Refurbishment of AH–1W Attack and Reconnaissance Helicopters

The Government of Bahrain has requested to buy equipment and services to refurbish twenty-four (24) Excess Defense Article (EDA) AH–1W multi-role helicopters. Included are services to refurbish a full-motion Aircraft Procedures Trainer (APT), M272A1 missile launchers and spare T–700–GE–401 aircraft engines, spare parts, support, training, publications, and other related elements of logistics and program support. The estimated total cost is \$350 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a Major Non-NATO ally that is an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Bahrain’s capability to meet current and future threats by improving its ability to fulfill maritime patrol, close air support, and search and rescue missions. Bahrain will have no difficulty absorbing these defense articles and services into its armed forces.

The proposed sale of these services and support will not alter the basic military balance in the region.

The principal contractor will be Bell Corporation, Fort Worth, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any

additional U.S. Government or contractor representatives to Bahrain.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
