SUPPLEMENTARY INFORMATION:

Background

On July 31, 2024, Commerce published the *Preliminary Results*,¹ determining that Gruppo Milo is the successor-in-interest to GRAMM for purposes of determining AD cash deposits and liabilities, and provided all interested parties with an opportunity to comment.²

Scope of the Order 3

The merchandise subject to this *Order* is certain pasta from Italy. The product is currently classified under subheadings 1901.90.9095 and 1902.19.20 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and Customs purposes, the written description of the merchandise subject to the *Order* is dispositive. For a complete description of the scope of the *Order*, see the *Preliminary Results*.⁴

Final Results of CCR

Because we received no comments from any interested party, these final results remain unchanged from the *Preliminary Results* and no decision memorandum accompanies this notice. Specifically, Commerce continues to find that Grupo Milo is the successor-in-interest to GRAMM and that, consistent with our established practice, Grupo Milo should receive the AD cash deposit rate previously assigned to GRAMM.

Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced or exported by Gruppo Milo and entered, or withdrawn from the warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at 5.30 percent, which is the current AD cash deposit rate for GRAMM.⁵ This cash deposit requirement shall remain in effect until further notice.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Fishing Capacity Reduction Program/Buyback Requests

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on May 14, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Fishing Capacity Reduction Program/Buyback Requests.

OMB Control Number: 0648–0376.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 200.

Average Hours Per Response: 0.5 hours for buyback fee collection reports; 4 hours for buyback annual reports.

Total Annual Burden Hours: 930 hours.

Needs and Uses: This request is for extension of a currently approved information collection.

The Sustainable Fisheries Act (SFA) amended the Magnuson-Stevens Fishery Conservation and Management Act (MSA) to provide for voluntary reduction of excess fishing capacity through fishing capacity reduction (buyback) programs. Excess fishing capacity decreases fisheries earnings, complicates fishery management, and imperils fishery conservation. The statutory objective of a program is “to obtain the maximum sustained reduction in fishing capacity at the least cost and in a minimum period of time.” Buybacks pay fishermen either to: (1) Surrender their fishing permits; or (2) both surrender their permits and either scrap their fishing vessels or restrict vessel title to prevent fishing.
