are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* As licensed, the unconstructed project would contain one turbine that produced 28.1 megawatts (MW) generating capacity. To install the single unit would require excavation of 100 feet of material, that may not be safe for the adjacent Corps facilities. Therefore, the licensee is proposing an alternate design that would utilize 5 smaller turbine units that would greatly reduce the depth of excavation. The proposed amendment would still have the same generating capacity of 28.1 MW but would reduce the rated turbine discharge of 18,486 to 17,650 cubic feet per second. The powerhouse would be redesigned to hold the five 3.65-meter bulb turbine-generator units, and would be approximately 170-foot-wide, 135-foot-high, and 180-foot-long. The headrace channel and tailrace channels would also be redesigned from what was originally licensed. No changes would occur to the interconnection transmission route.

m. *Locations of the Application:* This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the

appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

p. *Filing and Service of Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005.
